

CANAL PROJECT IS CONDEMNED**Plan From Spencer Canyon Called Infeasible****Federal Experts Report to Secretary Work****Many Serious Faults Are Found in Scheme**

(EXCLUSIVE DISPATCH)
WASHINGTON, March 23.—The proposed canal from Spencer Canyon on the Colorado River to lands in southwestern Arizona is dismissed as not worthy of serious consideration in a report by the special board of engineers on Colorado River development. The report was filed with Secretary of the Interior Work.

In brief, the engineers declare that the canal would be 800 or more miles long in all probability, instead of 548 miles as the promoters figured it; that there would be eighty miles of tunnels instead of twenty-seven, the promoters' estimate, and that the cost would exceed greatly the estimate of \$250,000,000.

The canal project was placed before the Interior department by G. W. Sturtevant and E. L. Stam last September. The engineers who made the adverse report are Spencer Cooby of the Army Engineering Corps, W. Kelly, chief engineer of the Federal Power Commission, E. B. Baker, engineer of the Reclamation Bureau, Herman Stabler, chief of the land classification branch, United States Geological Survey, F. E. Weymouth, chief engineer of the Reclamation Bureau, and Walter R. Young, also a Reclamation Bureau engineer.

ROUTE PROPOSED
The proposed canal was to begin at Spencer Canyon, with an intake elevation of 2000 feet, thence over and through mountain ranges and across rivers to a point near Maricopa, where elevation is 1300 feet. The promoters figured 3,500,000 acres of land could be irrigated by the project.

"The irrigable area appears to include all the lands that can be reached from this canal," says the report. "It is known that the portion of the lower Gila Valley below Sentinel Butte, is unsuitable to irrigation and there are also about 300,000 acres now irrigated from other sources which seem to be included. However, it is impossible for the information furnished at present available, to determine even approximately the extent of lands which could properly be classed as irrigable, and we have grave doubts that so large a body of irrigable lands exists under this proposed canal."

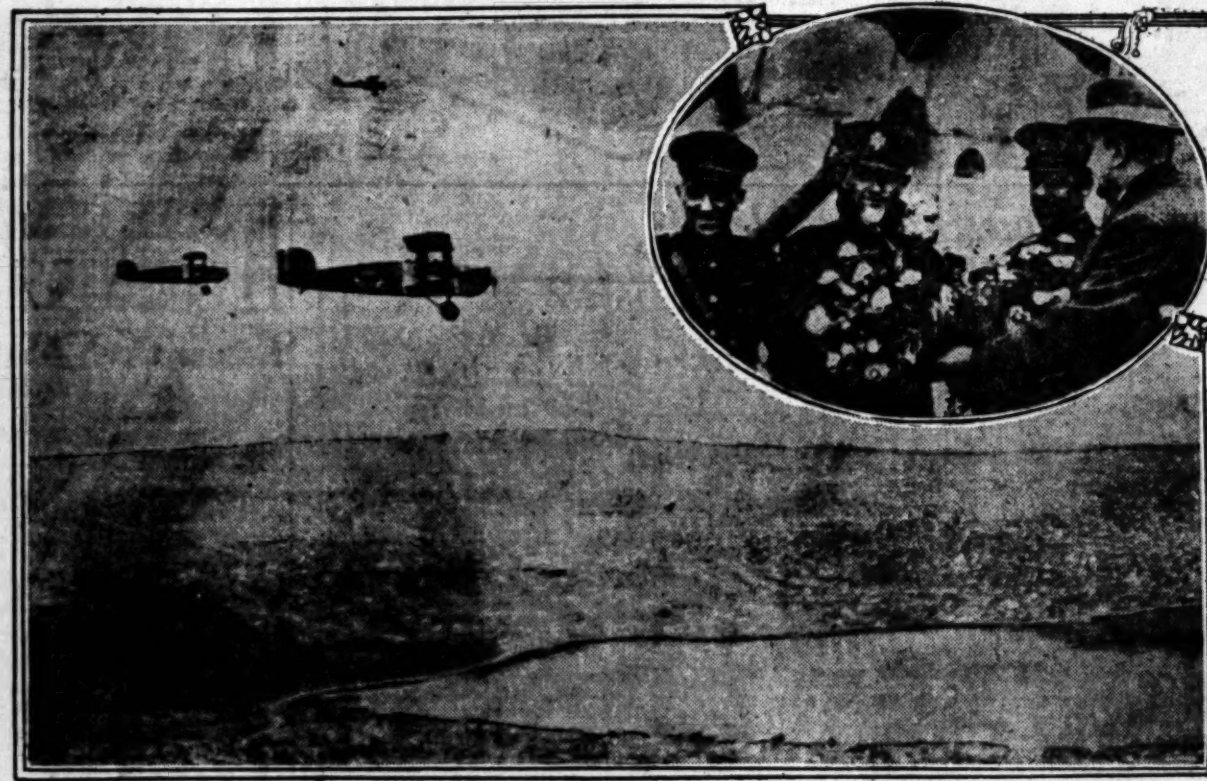

TREACHEROUS SHALE
Three feet of shale would be required to irrigate the land in this vicinity, say the engineers, and the shale by seepage and evaporation would be at least 25 per cent, so that it would be necessary to divert 14,000,000 gallons of water for each season, or construct a canal with capacity of 30,000 second feet. The first thirty-five or forty miles of the canal would have to be built in shale along the canyon walls and as shale is treacherous when saturated with water this section might have to be placed in a tunnel.

"Further on," says the report, the canal would traverse a great deal of country with steep slopes and also irregular that the construction of a surface canal would be exceedingly expensive and might not be feasible. The main canal would cross thousands of water courses varying from small gullies to deep wide canyons. Local storms are of very violent character, adequate provision must be made for carrying storm waters safely across the canal. This would add to the expense of the undertaking."

MANY FAULTS
The engineers doubt if a dam 800 to 1000 feet high is practical or feasible in Spencer Canyon. The upper 200 feet would have shale abutments, they point out.

The most serious difficulty, they say, would be the operation of the canal, a river with three times the flow of the Colorado at low water. One break, they say, would mean the shutting off of water for a period that would ruin crops, and there seems to be no place for a regulating reservoir of sufficient capacity near the irrigable lands.

"Pony" Mail Delivery
(EXCLUSIVE DISPATCH)
OMAHA, March 23.—In Dixon County and in several other counties in northeast Nebraska, the mail carriers have been using the "pony express" to deliver mail and the automobile has been idle on account of the roads being almost impassable to cars.

World Flyers Prepare for Next Stage of Tour**Aviators Feted at Portland and Seattle**

The picture above shows three of the round-the-world flight planes in the air over Seattle, where they are now resting for the second stage of the long journey. Insert at upper right shows Major George L. Baker of Portland presenting the flight leaders with the second stage of the long journey. Insert at lower right shows the flight leaders with the second stage of the long journey. Insert at lower right shows the flight leaders with the second stage of the long journey.

PLAN FIGHT ON MALADY IN CATTLE**Authorities Will Take Drastic Steps to Stamp Out Fresh Outbreak**

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, March 23.—Men, supplies and equipment are being rushed to Mariposa and Merced counties, and the slaughtering of cattle affected with the foot-and-mouth disease in that district was started today by authorities in a drastic effort to check a new outbreak of the malady.

Two counties are under strict quarantine, imposed by order of Gov. Richardson yesterday, after a fresh outbreak of the disease was reported in a herd of cattle near Merced.

Telegraphic appeals have been sent to the United States Department of Agriculture, who is in charge of the campaign against the disease in the State, asking additional men and supplies for combating the malady.

According to Dr. Rudolph Snyder of the United States Department of Agriculture, who is in charge of the campaign against the disease in the State, several thousand head of cattle are believed to be infected with the disease in the two counties. Stock on the Belvoir and La Poloma ranches are suffering from the infection, according to reports received at the Oakland headquarters.

Nine head of cattle in a small herd moved from Mariposa to Belvoir last week have been killed, it was announced. Several hogs in the same district are believed to be infected with the disease.

All available personnel of the local office, as well as State, Federal and county workers elsewhere are being rushed to the new quarantine area.

EXCESS POWER SOLD
Delivery From Don Pedro Project to Pacific Company Begun

(BY A. P. NIGHT WIRE)
FRESNO, March 23.—The Turlock irrigation district has begun the delivery of excess power from the Don Pedro project to the Pacific Gas and Electric Company to continue until the fifteen-year contract with the San Joaquin Light and Power Corporation becomes effective. It was said at the office of the latter company here today.

The surplus power sale will net the district \$500 a day, it is estimated.

Grand Jury for Oil Lease Quiz Soon Will Meet
(BY A. P. NIGHT WIRE)
CANTON (O.), March 23.—The Federal grand jury to investigate criminal liability of persons in connection with the leasing of naval oil reserves by former Secretary of the Interior Albert B. Fall will be impaneled ten days later for the taking of testimony, former United States Senator Alton Pomerene, one of the special prosecutors appointed by President Coolidge, announced here tonight.

Mr. Pomerene stopped here for a brief visit with relatives while returning to Washington from California, where suit was entered to annul the lease of the Doheny interests.

FATHER-DAUGHTER DAY IS ROTARY PLAN
(LOCAL CORRESPONDENCE)
HUNTINGTON PARK, March 23.—While many of the service clubs, such as the Rotarians, the Lions and Kiwanis, have had their "Father and Son" days, it remains for the Rotary Club of this city to have a "Father and Daughter" day, and this event has been set for the usual weekly noonday luncheon on next Monday. All the Rotarians of this city on that date will be expected to bring their daughters to the noonday meeting and if they have no daughter, they are expected to bring a daughter of one of their friends. The officers of the club state that it will be quite a serious matter to the pocketbook of the Rotarian who comes without his or some one's daughter on that day.

TRIM PLANES FOR LONG HOP**World Flight Aviators Correct Mechanical Defects for Hop-off from Seattle**

(BY A. P. NIGHT WIRE)
SEATTLE, March 23.—Mechanical defects in the engines of four United States Army air cruisers, which landed here last Thursday after the hop-off Monday from Santa Monica on a 25,000-mile jaunt around the world, were corrected today by the American aviators at Sand Point Aviation Field, near here.

Lieut. Erik Nelson, engineer officer of the squadron, spent the day making a new ignition harness to gain power and installing it preparatory to a test flight Monday.

"The engine worked fine coming to Seattle, but I know it can pull harder and I want every pound of power there is for the next 650-mile leg of the journey to Prince Rupert, B. C.," said Lieut. Nelson. "If I am not satisfied after a test flight, I'll change engines."

SEEK MORE POWER
Two carburetors in Lieut. Lowell Smith's airplane were changed by the mechanics. He said he would keep the original engine in the machine until it was adaptable to change.

"The engine I have works perfectly," Lieut. Smith stated. "It might feed a little better on 'pick-up' but the new carburetors will take care of that."

Lieut. Leigh Wade substituted the motor in his plane for a new one and spent the day tuning it.

"There was no lack of power in the old engine," declared Lieut. Wade. "That is for land flying, but I want all the power I can have after the pontoons have been substituted for runners."

BIBLES FOR CREWS
Eight specially bound copies of the Bible have been received by Lieut. Nelson for his aviators from a woman in Sacramento, who signed "Affectionately from the mother of the flight, Mother Tush."

Inside the front cover of each Bible is a small silk American flag arranged as a page marker and on the back cover is an envelope containing an Easter card with directions not to be opened until Easter morning.

The front cover of each Bible bears the following gold-lettered inscription: "New Testament, United States Army, Royal Flight."

The name of each aviator is similarly inscribed.

"Here you are, boys," declared Lieut. Nelson as he distributed the gifts. "I have a good deal of respect for what is said in these and for the people who believe in what is said in them. They will be a treasured remembrance of the trip."

SINCLAIR FACES TERM IN PRISON**World Flight Aviators Correct Mechanical Defects for Hop-off from Seattle**

(Continued from First Page)
Fred W. Upham, Republican National Treasurer, to testify in regard to the Sinclair political contributions is uncertain. Mr. Upham expects to take his testimony sometime during the week. He was instructed to bring to Washington all records bearing on funds received from the oil operator.

Martin J. Powers, attorney, and Charles E. Celschlager, architect, both of Philadelphia, will be called for questioning about charges by Celschlager that Powers had told him he was to get in on the Wyoming oil reservations through close connection with Atty.-Gen. Daugherty.

The oil committee and the Daugherty committee now have crossed each other's paths at various places, especially in connection with rumors of an oil deal at the Chicago convention, but the committee chairmen gave no indication tonight as to whether there would be a switching of witnesses in an effort to disentangle and re-assert the evidence in sequence.

DENIES PRECEDENT
The Democratic National Committee in a statement issued tonight with the approval of John Barton Payne, former Secretary of the committee, repudiated charges that the Democratic administration set a precedent for leasing of naval oil reserves.

The statement said that the Wilson administration did, "was to follow the national policy established by Presidents Taft and Wilson, and by Congress when it passed the leasing law to protect and conserve the naval reserves."

The statement said that not a single claim was allowed nor a single lease made as to Naval Reserve No. 1. As to Reserve No. 2, it was found that claimants had brought in about fifty producing wells. These, under the mandatory provisions of the leasing law, were leased to the claimants. With the approval of the Secretary of the Navy and the President, offset wells were leased where it was apparent that private wells were draining the reserve.

As to the Reserve No. 2, the statement said, "all of the claims were rejected and no leases were made."

WOMAN UNOPPOSED IN SCHOOL ELECTION
By a "Times" Staff Correspondent
SIERRA MADRE, March 23.—Mrs. Fletcher White, 275 West Montecito avenue, is the only candidate whose name will appear on the ballot for election as Trustee of the Board of Education. The election will be held on the 28th inst. and the place of Mrs. Ethel Hawks, present trustee, whose term expires on the 1st of April, will be filled. Mrs. Hawks does not seek re-election.

At the same election a bond issue of \$100,000 for improvements to the local elementary school will be voted upon, as well as a \$2,000,000 bond issue for the Pasadena High School District, of which this city is a part. Only a portion of this amount will be assessed against Sierra Madre.

GLENDAL DE MOLAY ORDER HEARS SERMON
(LOCAL CORRESPONDENCE)
GLENDAL, March 23.—De Molay devotionals were observed here today when the members of the local chapter met at the Masonic Temple on South Brand Boulevard and marched to the Congregational Church, where the Rev. M. Calderwood delivered a sermon fitting the occasion. Francis W. Reid, past master of the chapter, spoke during the services on the work that the local branch of the order is accomplishing.

FIRE DESTROYS LIVE STOCK
(EXCLUSIVE DISPATCH)
DETROIT, March 23.—Eleven cows, three horses and several hogs were burned to death in a fire which destroyed the barn on the farm of Earl Dineen, in Hazelton township, near the Genesee county line. A large quantity of hay and farm machinery was also destroyed. The loss is estimated at \$7500. Incendiarism is suspected.

TAX REDUCTION WEEK ARRANGED**Campaign for Mellon Plan to Begin April 7****Scheme Announced by Head of Citizens' Body****Nation-Wide Aid is Pledged, O'Ryan Says**

(EXCLUSIVE DISPATCH)
NEW YORK, March 23.—In support of the Mellon plan for a national tax reduction week, starting April 7 has been arranged in all parts of the country, it was announced today by Maj.-Gen. John P. O'Ryan, chairman of the Citizens' National Committee formed to put through the Mellon plan. The campaign will be conducted from general headquarters at the Biltmore.

Industrial groups, women's clubs and chambers of commerce everywhere are pledging their aid in the movement, Gen. O'Ryan said. Activities of the week will include meetings in home centers and the sending of messages to members of Congress, stirring them to action. The purpose will be to prove that the country is largely in favor of the Mellon plan, the general declared.

UNFAMILIARITY BLAMED
A great deal of the opposition to the program is due to failure of the critics to familiarize themselves with the plan, he continued. An educational campaign, to include radio talks, distribution of literature and the holding of debates, will be opened to overcome this.

The provisions of the Mellon plan are sound and based on principles involving the best interests of the country, Gen. O'Ryan said. "This tax reduction will help the small wage earners as well as encourage men of greater incomes to use their wealth for productive enterprises instead of investing it in tax-exempt securities to avoid the heavy surtaxes."

"It is a scientific effort to develop incomes that will pay taxes. The interests of capital and labor are alike affected, and only when both are put to active use can real prosperity be attained. Adoption of the Mellon plan will stimulate industry and bring about a continuous and extension of good times."

DEPLORES POLITICS
"That is why we feel national tax-reduction week can render a genuine crystallization of public views on the subject of taxes, and above all, by showing to Congress that the people are behind President Coolidge and Secretary Mellon for a scientific readjustment of the problem. Let us stop playing politics with taxes."

The canvass made thus far to determine popular sentiment, Gen. O'Ryan concluded, has resulted in finding an overwhelming feeling in favor of the plan. Many of the mercantile and business organizations of the city have arranged to participate in the week's activities as well as groups of civic clubs and professional bodies.

FAMILIES RENDERED HOMELESS BY BLAZE
(LOCAL CORRESPONDENCE)
GLENDAL, March 23.—Fire that broke out in a house belonging to F. W. McIntyre at 1041 South Verdugo Road, damaged the property so badly before the fire department could bring it under control that the two families of Mr. and Mrs. A. E. Redford and Mr. and Mrs. J. W. Irick, were rendered homeless. They lost a large amount of clothing. The fire was discovered by Philip Harris of the Glendale Fruit & Produce Company, who awakened the sleeping families and then summoned the firemen. The property, Mr. McIntyre states, is covered by insurance.

ANAHEIM IS ON GUARD TO PREVENT TYPHOID
(LOCAL CORRESPONDENCE)
ANAHEIM, March 23.—Although there have been no cases of typhoid fever reported in Anaheim recently, every precaution is being taken to guard against contagion resulting from the serious epidemic in Santa Ana, according to Dr. J. W. Truxaw, city health officer, who issued a warning to local residents not to use any milk coming from Santa Ana dairies except that which has been pasteurized. Dr. Truxaw stated that he made the recommendation only as a matter of precaution, and that it was in line with the other ideas being carried out to prevent any cases of the disease here.

BUILDING UP DESPITE COSTS

Survey Shows No Construction Let-up; Labor Gets Peak Wages, Statistics Indicate

(EXCLUSIVE DISPATCH)
CHICAGO, March 23.—Despite the high cost of labor and materials, building conditions throughout the country are booming, according to a general survey just completed. Due to mild weather, most of the winter there was practically no let-up and indications all point to heavy building operations throughout all the present year.

Striking contrasts are shown between the present and the past. In 1913, for example, the average day's work was only a few years ago when car-

ered from many cities show that building labor is now getting peak wages.

A national survey shows that bricklayers receive from \$1.12 1/2 to \$1.75 an hour, carpenters 70 cents to \$1.60 an hour, hod carriers 60 cents to \$1.25 an hour, the latter representing what but a few years ago they received for a ten-hour day.

St. Louis shows the highest wages in the country. Builders there are demanding \$1.50 an hour, Monday to Friday, inclusive and \$2 an hour for Saturday and Sunday work.

New York City building mechanics recently signed new contracts calling for 50 cents a day increase. This establishes a \$10.50 a day scale. In Chicago a majority of the trades are reported satisfied with the \$1.25 an hour scale.

In Los Angeles bricklayers' bonuses have been abolished and the \$10 a day scale is the minimum. In Memphis bricklayers' wages have been cut from \$1.40 an hour to \$1.27 1/2 an hour but plumbers received an increase of 7 1/2 cents an hour.

Wages in Canada are much lower than in the United States. Bricklayers get 90 cents an hour, carpenters 75 cents, hod carriers 50 cents and common laborers 35 cents an hour.

Mrs. McGrael in her petition to Justice Erlanger for the order of arrest said her husband, whose home is in California, receives from \$150 to \$200 a year as a motion-picture actor, but that she and her infant daughter are in want.

She wanted McGrael to file a bond with the court so as to guarantee the payment of alimony that might be awarded in her suit. She expressed the fear that McGrael would return to California and thus defeat the purpose of the court order.

Mate Out All
Night Haled to
Court by Wife

(EXCLUSIVE DISPATCH)
YONKERS (N.Y.), March 23.—Raymond Guilfoyle, 35 years of age, was escorted into Yonkers City Court yesterday by his wife, who asked that he be punished for staying out all night twice in two weeks.

The court, after advising Guilfoyle that if he insisted upon being a night owl, he must also become a jail bird, gave him a suspended sentence of thirty days in Eastview Penitentiary. The sentence becomes effective if he stays another all-night session.

Guilfoyle said he did not report home some nights in order to avoid arguments.

BELGIAN KING FAVORS
ECONOMY LEAGUE PLAN

(BY CABLE AND ASSOCIATED PRESS)
BRUSSELS, March 23.—King Albert has given his patronage to the Economy League, members of which bind themselves to buy no foreign goods, to reduce personal expenses by restriction of personal consumption; to buy no foreign currency except when indispensable to their commerce or industry, and to recruit as many members to the league as possible by their example and precept.

ARIZONA MINING TO
BE TOPIC OF PARLEY

(EXCLUSIVE DISPATCH)
PHOENIX, March 23.—In Phoenix next Thursday will be held a hearing covering conditions of the gold and silver mining industry of Arizona by a special Senate committee headed by Senator Tasker Hildreth. The hearing will be conducted by Fletcher Hamilton, formerly of the California State Mining Bureau.

MILWAUKEE DOCTOR FINED
MILWAUKEE, March 23.—Dr. Wallace Reinhardt, former head of the Milwaukee Health Institute, was fined \$1000 in District Court here on two counts of a charge of obtaining money under false pretenses in connection with the operation of a clinic here. The place was closed last year.

Welfare Worker Gives
Statistics on Survey Made
in Chicago

(EXCLUSIVE DISPATCH)
CHICAGO, March 23.—Fairly good husbands are worth from 10 cents up to \$1.25, according to statistics supplied today by Mary McDowell, of the Chicago welfare bureau.

The price of a husband, she declared, depended upon the fee collected at the door of a dance hall. Once inside, if the girl shaken a "wicked shoulder" or a "mean toe" the husband is assured. She proved her contention by figures showing that one dance hall had promoted seven weddings in the last week. The brides were recruited from 20,000 girls who are living in boarding houses and hall bedrooms throughout the city and have no place to receive their friends except in the dance hall. An average of 85,000 persons attend dance halls every week, but only ten of these places are said to have proper hostesses and chaperones.

Storekeeper of
Open Forum Day
Seized by Death

(EXCLUSIVE DISPATCH)
DETROIT, March 23.—Martin J. Maloney, corner grocer, is dead. He was shot at his home, 2334 Seventeenth street, after an illness of six months.

Mr. Maloney was 51 years of age and was one of the survivors of the old-style grocer, who became a neighborhood leader because his store was a forum for discussion of all the affairs of city, nation and world.

His place of business for many years was at Brooklyn avenue and Plum street. It had a thriving trade. He had a sympathetic ear for the sorrow and joys of his neighbors and patrons. Mr. Maloney had a comfortable spot in the store where public could come to discuss the affairs of the city. He was one of the first to realize the importance of individual grocers would have from chain stores, which could buy to better advantage, and became active in the Retail Grocers' Association, of which he at one time was president and later president of the National Retailers' Association.

In recent years, he was forced into partial retirement by serious eye trouble, but he continued to make the store his headquarters and dispense counsel to his friends until stricken with his final illness.

TRAFFIC OFFICER'S
WIDOW GETS POLICY

(BY A. P. NIGHT WIRE)
SACRAMENTO, March 23.—Efforts of the Division of Motor Vehicles to obtain compensation for Mrs. Betty Pickett, widow of Clarence E. Pickett, late traffic officer of Madera county, have been completed with information from the California compensation insurance fund that a policy of \$5000 would be paid to Mrs. Pickett in monthly installments. Pickett was shot and killed November 16, last, while attempting to arrest Walter V. Yeager and Harry Terry, seven miles north of the city of Madera.

MAY FACE CIVIL SUIT
IN ASSAULT CHARGE

(EXCLUSIVE DISPATCH)
MILWAUKEE, March 23.—Fred Beckman, Kenosha grocer and clubman, who was acquitted by a jury in Circuit Court at Kenosha on statutory charges brought by Gertrude Brzicki, formerly a nurse maid at his home, will probably face a civil suit, relatives of the girl declare. Miss Brzicki charged that Beckman had criminally assaulted her on two occasions, and that he was the father of a baby which was born to her in January, 1923. The jury's verdict was reached after twenty-four hours of deliberation.

Could your doctor build
a skyscraper?

YOU wouldn't ask your doctor to build a skyscraper or invite an architect, however much your friend, to give medical advice to your family. Not to demand specialists for such things is dangerous.

On the same principle, should you entrust financial matters of paramount importance to your family's happiness or the future of your business to those of less specialized training and experience?

No business needs the attention of specialists more than do the troublesome, but important, duties of executor, guardian and trustee. For this reason the Trust Company exists. It applies expert business supervision to all manner of trusts for individuals and corporations—managing property, investing funds, paying income and otherwise intimately serving its customers and their beneficiaries. This is its sole and exclusive business.

What a Trust Company can do for you.

Executor of wills, administrator of estates.
Guardian of property for minors and incompetents.
Trustee under wills and voluntary trusts.
Trustee under separation agreements and marriage settlements.
Trustee, attorney-in-fact or agent for managing real and personal property.
Trustee of life insurance policies.
Trustee of subdivision trusts.

In addition to these personal trust functions, the Trust Companies named below perform all standard Trust and Fiscal services required by Corporations.

CITIZENS TRUST & SAVINGS BANK
HELLMAN COMMERCIAL TRUST & SAVINGS BANK

CUBAN JUNTA IN NEW YORK

Garcia's Son and Other Leaders Seek Overthrow of Zayas Regime; Corruption is Charged

(EXCLUSIVE DISPATCH)
NEW YORK, March 23.—A Cuban junta, whose avowed purpose is to overthrow the administration of President Zayas in Cuba is working secretly in New York. The first clew to its existence was the arrival in New York, Thursday night, of Gen. Carlos Garcia Velez, dean of the Cuban diplomatic corps and present Minister to England. He is the son of Gen. Garcia of the "message-to-Garcia" fame.

Gen. Garcia is in hiding with Col. Manuel Desplaine, former Secretary of Finance, who was ousted from the Zayas Cabinet, and a third Cuban, internationally known, whose name cannot be revealed. They consented to talk today to a reporter who had sought them out on condition that their hiding place should not be told and that the name of the third man be kept secret. Desplaine fled Cuba last September.

CHARGE CORRUPTION
They charge graft and corruption against the Zayas administration, citing alleged instances. They warn American capital to stay away from Cuba at the present time because they say existing concessions procured by graft will be wiped out when Zayas is overthrown and an "honest administration" gets in.

Gen. Garcia and his colleagues blamed the Cuban lottery system as the fountain-head of most of the alleged official corruption. "You know, there are two great

NEW YORK, March 23.—Frank A. Vanderlip has resigned as director of the Continental Can Company because one of the members of the board took exception to Vanderlip's widely discussed statement that President Harding sold the Marston Star for more than it is worth.

Mr. Vanderlip, a fellow-director, wrote to Mr. Vanderlip two weeks ago and demanded that he resign at once.

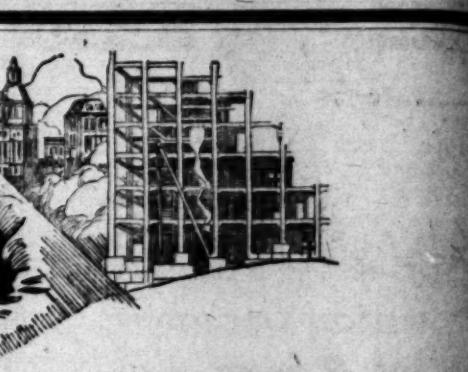

Mr. Vanderlip, it is understood, made a defense of broadcasting what he admitted on the witness stand in Washington were only rumors, but willingly resigned. "I asked him to resign because of his unwarranted attack on President Harding," Mr. Harding said. "I am a Republican. But politics has no part in this. My objection was to the assassination of the character of a dead man. I wrote him a forceful letter. I refused to sit with him any longer."

FUEL SHORT, STEAMER

ESTRELLA SAILS TO REFUEL
TROPICAL FROM PORT
OF SAN DIEGO

(BY A. P. NIGHT WIRE)
SAN DIEGO, March 23.—A report that the Mexican steamer Tropical, bound from Mazatlan to San Francisco, was in danger of becoming helpless 300 miles south of here, from shortage of fuel, was contained in radio advices received here today from the disabled vessel, and the steamer Estrella sailed from this port tonight loaded with oil drums to aid the stricken ship.

In the radio dispatches from the Tropical it was stated that the vessel left Magdalena Bay yesterday morning with barely enough oil to reach San Quentin, Lower California, 250 miles to the north, and if the oil gave out before that port was reached, the ship would be forced to anchor off Cedros Island, south of San Quentin. The Estrella expects to reach San Quentin tonight and if the Tropical is not there will head for Cedros Island to pick up the fuel-less vessel.

Could your doctor build
a skyscraper?

YOU wouldn't ask your doctor to build a skyscraper or invite an architect, however much your friend, to give medical advice to your family. Not to demand specialists for such things is dangerous.

On the same principle, should you entrust financial matters of paramount importance to your family's happiness or the future of your business to those of less specialized training and experience?

No business needs the attention of specialists more than do the troublesome, but important, duties of executor, guardian and trustee. For this reason the Trust Company exists. It applies expert business supervision to all manner of trusts for individuals and corporations—managing property, investing funds, paying income and otherwise intimately serving its customers and their beneficiaries. This is its sole and exclusive business.

What a Trust Company can do for you.

Executor of wills, administrator of estates.
Guardian of property for minors and incompetents.
Trustee under wills and voluntary trusts.
Trustee under separation agreements and marriage settlements.
Trustee, attorney-in-fact or agent for managing real and personal property.
Trustee of life insurance policies.
Trustee of subdivision trusts.

In addition to these personal trust functions, the Trust Companies named below perform all standard Trust and Fiscal services required by Corporations.

WEN BATTLE FOR PRO TITLE

Starts Today at
Country Club

Get Trip to Open
Tourney at Detroit

Competition Expected
in Annual Event

CHARLES WEST

California's army of
golfers opens today a
battle for the pro title of the
West, which carries with it
the national open cham-
pionship at Detroit, next June.

West will be placed to-
morrow and Wednesday on
the qualifying round be-
fore this morning over
the course.

West is an alluring oppor-
tunity for the winner,
who is expected to receive
a substantial prize. Several
players have been expected
to enter the tournament, but
the qualifying round has
not yet started.

West is a professional golfer
and has been playing for
several years. He is a
member of the California
Golf Association and has
won several tournaments.

RIVERSIDE TROUNCES CARDINALS

Extra Period Necessary to
Determine Winner in Fast
Match at Coronado

SAN DIEGO, March 23.—
Riverside's crack polo team
defeated the Del Monte
Cardinals, 12 to 11, in an ex-
tra game this afternoon on
the Coronado Country Club
field, winning the right to
meet the Midwest four in the
final game for the Pacific
Coast open polo champion-
ship, Tuesday afternoon.

With both Riverside and the
Cardinals playing a hard,
fought game, the result was
in doubt until Harry East,
plucky Riverside star, drove
the ball between the posts
during a fast mix-up in front
of the Cardinal goal after
about five minutes of the
extra period had been played.

The score stood at 9 all
when the final chucker
opened. Fred Roe scored
first for Riverside with a per-
fect backhand shot but Elmer
Boeske came right back for
the Cardinals with two goals
in succession, one a long
drive from about a third of
the way down the field. Riv-
erside then missed two tries
by narrow margins, but Roe
came through to save the day
after East had taken the ball
down the field to score the
telling goal just before time
was called.

The extra period was then
called. Two falls marred the
game. East taking a particu-
larly hard hitting, drawing
chucker when his pony went
down while under a hard ride.
With great presence of mind
East rolled clear of the pony
but was stunned by the fall.
He resumed playing after a
short time amid the cheers of
spectators. G. G. Moore of
the Cardinals met with a mis-
take in the extra period when
he was thrown while attempt-
ing a shot near the side
boards. Neither rider or pony
were hurt.

East was the individual star
of the game, his riding and
wonderful hitting drawing
the admiration of the crowd.
Fred Roe, Fred Prince and
Lafayette Hughes, the other
members of the team, also
came through in great style.
Boeske scored eight of the
eleven Cardinal goals and was
in the game every second.
C. V. Whitney and Tevis also
showed well with Moore, a
left-hander, handling a capped
somewhat in the fast riding.
The lineup:

Riverside: Fred Roe, Fred Prince,
Lafayette Hughes, Harry East,
G. G. Moore, C. V. Whitney,
Tevis.

Cardinals: Elmer Boeske,
Fred Prince, C. V. Whitney,
Tevis, Harry East, G. G. Moore.

JOSE CAPABLANCA
WINS A GAME AT LAST

(BY A. F. NIGHT WIRE)
NEW YORK, March 23.—Jose
Capablanca of Cuba, world's
champion chess player, today won
his first game of the international
chess masters' tournament, by
beating Dr. Tarkakower of Vienna,
one of the leaders, in fifty-one
moves. The Cuban's subtle play
in a difficult ending was regarded
by experts as an indication that he
had returned to form.

Dr. Tarkakower's fall pulled
him from first place, which now
is held jointly by Boboljubow of
Leningrad, who drew a bye today, and
Alekhine, the Russian, who de-
feated Janowski of France, in
forty moves. Reti of Czechoslo-
vakia, won from Yates of Eng-
land, in thirty-one moves.

The official Marathon distance is
twenty-six miles and 385 yards.

UNDER THE BIG TOP BY FEG MURRAY

MISTER FIRPO WILL RETURN, BUT ONLY AS MOVIE ACTOR

(BY CABLE AND ASSOCIATED PRESS)
BUENOS AIRES, March 23.
Luis Firpo, the Argentine
heavyweight, who recently
recently announced that he
would retire from the ring
after his forthcoming bout
with Al Reich, is willing to
return to the United States to
become a movie actor. Luis
has cabled a Los Angeles com-
pany asking if the offer of
\$250,000 made to him while
he was in the United States
to appear on the screen still
was open. If it is, his mes-
sage said, he was willing to
accept it. Otherwise, he de-
clared he intends to sail for
Europe next month.

Firpo yesterday received a
cablegram from Juan Homs,
who formerly represented Tex
Rickard in Buenos Aires, say-
ing Rickard was willing to
propose a proposition from Rick-
ard, and requesting Firpo
not to enter into any en-
gagements until Homs ar-
rived in Buenos Aires.

Firpo said, however, that
unless he obtained a favor-
able answer from Los An-
geles he would surely sail for
Europe, regardless of Homs's
mission. He reiterated that
he was through with boxing.

OBSERVATIONS

BY THE
INNOCENT
BYSTANDER,
W.M.H.

Cliff Argue's sudden burst
into fame as a sprint-demon-
stration of championship calibre
after three years of fustling around
as an "iron man" brings
worthy honor on a deserving
young man. The Tiger track
star, as modest and unassum-
ing a young person as might
be imagined and has gladly
done his bit each year by
sacrificing any personal
ambitions he may have had in
order to pick up as many
points as possible for his college.

When Argue failed to place
in the open 100-yard dash
out at the Coliseum, a wise
young man up in the bleachers
—evidently hailing from a
northern school, remarked:
"Yes, he may be good for a lot
of points against a little
school, but he couldn't win
any against a real team." Any-
body who can gallop 100
yards in 9.8, as Argue did
against Pomona, can win
points in any league.

Incidentally, Occidental's
sprint aggregation consists of
more than Argue. Against
U.S.C. and again against Pom-
ona, Argue's success was so
close to Argue that it took an
argument to choose first place.
Bud Nash is in some ways the
most remarkable of the lot.
He was running a close third
in the Oxy-U.S.C. meet but
jumped at a white walk mark
across the track at ninety
yards and was barely noted
by the crowd. He was a lot
of people thought he beat
Maxwell for the title.

Argue's all-around record is
certainly hard to beat but his
entry in a flock of events natu-
rally interferes with his effi-
ciency in all of them after the
first one. It is hardly likely
that he would have lost the
220 to Maxwell Saturday if he
hadn't fussed around taking a
tie for second in the high
jump and winning the broad
jump rather than the high
jump from Little Homer Frisbie
of Pomona. Incidentally he made
a neat total of 17 1-2 points
which brings his total points
against Pomona in three suc-
cessive years to 65 1-2 points,
just enough to win one suc-
cess all by himself.

This bird Bud Nash is cer-
tainly a freak. While a prop-
erly a great broad jumper and
a fair sprinter. As a
freelance jumper he has got
mixed up in a motorcycle ac-
cident and suffered a com-
pound fracture of his jump-
ing leg. Here he turns around
this season and consistently
runs the hundred in 16 1-5,
something he couldn't do in
high school, and he is again
broad jumping in the neigh-
borhood of 22 feet.

While Bud Houser's illness
undoubtedly cost U.S.C. a track
victory over the University of
California you certainly have
to hand it to that old boy up

there for his ability to make
points grow where points
never grew before. If you
read the summary of the meet
you will see a whole flock of
point winners for California of
whom you never heard. Chris-
tie's teams are never really
terrible in any event and if he
hasn't a real champion in any
one event he usually has a
whole herd of guys who are
pretty good.

The fact that the meet at
Berkeley Saturday was run in
the slip prevents any knowl-
edge of just how good or how
rotten the Bears are in most
of the events although the
suspicion is that they are bet-
ter than folks thought a week
ago. Local rooters will prob-
ably always believe that if the
Bears had been held under
weather conditions more near-
ly resembling those to which
they had been held under
that U.S.C. would have won.

Much Boxing on Tap for New Yorkers

(EXCLUSIVE DISPATCH)
NEW YORK, March 23.—
Plenty of boxing is in store for
New York fans this week, not-
withstanding the fact that Mad-
ison Square Garden is being made
ready for a circus.

The Lenox Uptown Club starts
the week tomorrow night with
a twelve-round affair between Babe
Herman and Johnny Lesser, and
simultaneous in Brooklyn, at the
Broadway Club, Bobby Michaels
and Joe Tipitz of Philadelphia
will toss the gloves for twelve in-
nings. There is also a twelve-
round affair scheduled for tomor-
row night between Charles Pickler
and Charley Bernard at the Two-
Hundred and Twelfth Regiment
Armory.

The Mike Burke and Ray Neu-
man ten-round bout, carded for
the Pioneer Athletic Club Tues-
day night, promises to be the real
draw of the week.

On Thursday evening at the
Rink Arena, Brooklyn, Young
Brown, California lightweight, will
make his debut here against Ben-
ny Valcar, French flash.

CHICAGO VETERAN IN FRONT AT DEL MONTE

(BY A. F. NIGHT WIRE)
DEL MONTE (Cal.) March 23.
With a medal score of 85, Howard
Wrenn of the Excelsior Club of
Chicago led a field of twenty-four
veteran golfers, all more than fifty
years old, in the qualifying round
of the Del Monte first annual sen-
iors' tournament here today. One
stroke behind Wrenn, Walter Davis
carried off the low net trophy, his
card reading 86-14-70.

Golfers from many sections of
the country participated in the
tournament and two from China
also were among the contestants.

Wrenn, a former professional golfer,
was a member of the U.S. Golf
Association and has won several
tournaments. He is a member of
the California Golf Association
and has won several tournaments.

Wrenn is a professional golfer
and has been playing for
several years. He is a

PROGRAM CANCELED AT ASCOT

Rain Quers Deal for the
Drivers, But Bentel is
Insured for Loss

The weather man played a
scurry trick on the automobile
racing daredevils yesterday
afternoon. George Bentel had
\$5000 rain insurance on the
Ascot Speedway gate yesterday
afternoon, so when it became
necessary to postpone the ten-
event card scheduled until
next Sunday, George did not
feel so badly. To the master
auto race promoter science
alone had provided a body
blow. But the auto racing
drivers lost the opportunity
to win a gob of cash and
added honors. The almost con-
tinuous rain since Saturday
night had rendered the
grounds and track unfit for
yesterday's program, and
when Referee Charlie Kep-
pen, at 2:30 o'clock, called off
the show it was a mere for-
mality. The same card will be
staged next Sunday at the An-
derson Hotel in both singles
and doubles. Harold Goddard
and Tom Ferrandini meeting Casey
and Howard Kinsey in the final match
in men's doubles.

It Miss Wills performs next Sun-
day she will probably have as her
opponent Mrs. May Sutton Bundy,
many times holder of the title
which now is the property of
the U.C. Co-ed. If Miss Wills is able
to arrange the trip as she is not
to interfere with her studies, it
is probable that she will play here.

STROUD SIGNS UP AT
LAST WITH SALT LAKE

(BY A. F. NIGHT WIRE)
FRESNO, March 23.—Raigh
Stroud, a hold-out since 1921, to-
day scratched his monkey on
Salt Lake Pacific Coast League
contract and declared himself de-
lighted to be back in the fold of
organized baseball.

After falling to join Salt Lake
in the spring of 1921, Stroud
hooked up with Hanford in the
Valley league, an independent cir-
cuit, and twirled for them until
last September. He was reinstated
this spring.

Oscar Vitt, third baseman, and
Rudy Kallio, pitcher, are still
staying away from camp due to
salary differences. Outfielder Joe
Wilhoit has signed his contract
but has not reported due to pre-
siding business matters at his home
in Santa Barbara.

McCANN REJOINS HIS CLUB AFTER HOLD-OUT

(BY A. F. NIGHT WIRE)
PORTLAND (Ore.) March 23.—
Emmett McCann, Portland in-
fielder, who has been holding out
for more pay than the club was
disposed to grant, has accepted the
terms offered and will proceed to
the camp at Stockton, Cal., at
once, according to a telegram re-
ceived at headquarters of the
club here from Fred Rivers, the club
secretary, at Stockton. This re-
duces the number of Beaver hold-
outs to three, First Baseman Ev-
erett and Pitchers Levens and Bed-
ent.

TOM RAY THROWS SAM CLAPHAM AT EUREKA

(BY A. F. NIGHT WIRE)
EUREKA, March 23.—Tom Ray,
Eureka middleweight grappler, de-
feated Sam Clapham, claimant of
the mid the supremacy of the
wrestling champion of Great Britain, here
last night after an hour and 25
minutes with a series of headlocks
which rendered Clapham uncon-
scious and unable to continue af-
ter the ten-minute rest interval.

Rickenbacker 6

A CAR WORTHY OF ITS NAME

Built and sponsored by men of
the highest ideals and incorporat-
ing in its design more worth-while,
practical, down-to-the-minute fea-
tures than can be found in any
other car, the Rickenbacker 6
RECOGNIZES NO COMPETITION
and it truly awakens the keenest
desire of possession.

One-third down and the balance
in eighteen equal monthly pay-
ments, and the further fact that
the car is completely equipped—
including front and rear bumpers,
automatic windshield wiper, trans-
mission lock, windshield side
wings, motometer, extra tire and
cover, state license fee—all for the
advertised price delivered here in
Los Angeles, makes it easier for
you to own a Rickenbacker.

PASADENA

Our Diamond Policy

For twenty-five years we have pursued an ultra conservative policy in regard to selling diamonds, being satisfied with a fair or normal turnover. Recently, however, we have had a change of heart as we have been impressed with the importance of our prestige among the Jewelry Craft as well as our reputation and standing in our own community.

Believing, therefore, that a wider field exists and a larger turnover is possible, we have determined to make our prices accordingly.

Consequently, we have carefully gone through our entire Diamond stock and reduced the prices. It is our determination to sell Diamonds at prices which will fully justify your calling, or sending from out of town.

\$80 New blue white Diamonds set in basket, white and green gold mountings.

\$100 Blue white Gems set in beautiful green and white gold basket mountings.

\$75 Extra size, perfect Diamonds. Some very unusual ideas are carried out in the settings.

These Diamonds are of especially large size and fine quality, and are not to be confused with ordinary offerings. "Genuine Orange Blossom" mountings are featured.

Prices on larger stones cheerfully submitted. Comparison invited. Full price allowed in exchange for a larger stone. Purchases out of town sent C.O.D. with postage of full return.

FRENCH FAVOR ARMS PARLEY

American Invitation Would be Accepted

Note of Skepticism Heard as to Success

German Agreement to Pact Essential

(BY CABLE—EXCLUSIVE DISPATCH) PARIS, March 23.—France is favorable to the American proposal of a conference for the limitation of armaments, although certain circles do not hide their skepticism of the success of another international disarmament conference.

"If President Coolidge invites France to participate in another arms conference, France's duty is to accept," Deputy Erich, leading member of the French Chamber, declared in an interview today. "We want to show the world again that France is not a nation of imperialism and militarism, as enemy propaganda is telling the world. However, one cannot have many illusions about the practical results of such a conference. The Washington Arms Conference really marked the beginning of a new world race for armaments."

French public opinion is warming again toward a resurrection of the strong Anglo-French entente pending the possible conference envisaged between Premier Poincaré, Prime Minister MacDonald, and Premier Thounia. The French argument is that Great Britain's security depends on peace in Europe, which is best assured through an entente against any war of aggression. Otherwise, it is pointed out, Great Britain might choose the old system of "divide and rule," setting France to fight Germany, the United States to fight Japan, Russia to fight China, etc., finally leaving England alone supreme.

ASKS HALF OF ESTATE DESPITE AGREEMENT

(EXCLUSIVE DISPATCH) DENVER, March 23.—Action to obtain half of the \$102,000 estate of the late Dr. Charles A. Powers, former prominent Denver physician, has been taken today by his widow, Mrs. Katherine N. Powers, although court records show that in a separation agreement drawn up between Mrs. Powers and her husband in April, 1919, she released all claim to his property. Dr. Powers bequeathed his widow \$50,000 in his will, which was admitted to probate in April, 1923.

Rubber was first made up into hard novelties, such as hairpins and combs.

JAPAN PLANS OIL INVASION

Prince and Corps of Experts Going to Rumania for Inspection Before Agreement Made

BY RAYMOND HENDRICK (BY CABLE—EXCLUSIVE DISPATCH) [Copyright, 1924, by the Chicago Tribune.]

BUCHAREST, March 23.—The Japanese government is planning to enter the Rumanian oil fields on a large scale this year. Prince Hiko Higashi Kum, brother-in-law of the Emperor of Japan, is coming to Bucharest on April 2 with a staff of technical advisers to add the final touches to an agreement drawn up by the two governments.

When Queen Mary sent Crown Prince Carol on his trip around the world four years ago, he and Zizi Lambrino, his beautiful young wife and their baby boy stopped off in Tokio a few days, and Prince Hiko is ostensibly coming to pay a return visit, but his real purpose is to talk oil and Russian affairs.

FIELDS INSPECTED
Two Japanese military and naval commissions have made a remarkably complete inspection of the Rumanian oil fields within a few months, particularly some prospective Bessarabian oil fields near the Russian frontier, and selected a number of districts they would like to exploit. These commissions seemed as much interested in developing the Rumanian oil fields as the Japanese invasion threatens the Standard Oil and the Shell, Royal Dutch and Anglo-Persian combinations. The Japanese are only running to half their capacity because of the lack of production.

The Japanese government has negotiated directly with the Rumanian government because the latter has just nationalized the subsoil mineral and petroleum deposits.

COOLIDGE SAN DIEGO CLUB ALIVE

President's Boosters in Southern City Will Open Downtown Office

(EXCLUSIVE DISPATCH) SAN DIEGO, March 23.—The San Diego Coolidge-for-President Club will open downtown headquarters tomorrow as a signal for what Coolidge leaders declare will be the inauguration of one of the most vigorous political campaigns in this district. The personnel of the executive committee which will direct the campaign includes leading Republicans of the city and county.

Jack T. Millan, City Treasurer and city chairman of the campaign committee, said that this action means the campaign has been started in earnest and will continue actively until the Presidential primary in this State May 6. It is the intention to canvass every precinct in the county, to appoint committeemen in every district, and to hold counting meetings from time to time. Enthusiasm prevails in the ranks of the more than 200 Coolidge Club members in this county and all are anxious to donate their services to the cause. State Senator Ed P. Staple, president of the club, will devote much time to making the campaign, as also will C. G. Sellick, chairman of the Republican Central Committee, who is one of the leaders in the Coolidge movement.

CHICAGO IN BATTLE ON SMALLPOX

Drastic Steps Taken to Protect City in National Epidemic of Disease

(EXCLUSIVE DISPATCH) CHICAGO, March 23.—A national outbreak of smallpox which is threatening at this time has prompted the city Health Department to take steps to protect Chicago, according to Dr. Herman N. Mendenhall, health commissioner. The situation here is well under control he said, but it is necessary to take precautionary measures to guard against smallpox victims coming into the city.

There has been a greater outbreak of smallpox throughout the country in the last few days than has been experienced in a number of years, according to the commissioner.

An appropriation of \$4000 has just been granted by the City Council at the request of the Health Department for the purchase of smallpox vaccine.

A special force of fifty physicians has been added to the Health Department staff to act as vaccinating crews. The physicians will operate especially among the hotels and the "flop" districts on West Madison street. Approximately 1800 have been vaccinated at the Young Men's Christian Association Hotel during the last three days.

FLASKS, TWO OF 'EM, BLAMED FOR ARREST

(EXCLUSIVE DISPATCH) FRESNO, March 23.—Informed by Traffic Officer A. L. Rose that he could not make a left-hand turn at Fresno and Van Ness avenue yesterday afternoon, H. L. Morley replied he would go nowhere. So the officer started to ascertain the reason for his demerit and found it, however, in Morley's pocket. He reported. He was taken to the County Jail, accused of possessing intoxicating liquor. At the jail, officers say, more of the reason, for a second bottle was removed from Morley's pockets.

NATIVE SON'S CHIEF TO BE FRESNO GUEST

(EXCLUSIVE DISPATCH) FRESNO, March 23.—William J. Hayes, Grand President of the Native Sons of the Golden West, will be the guest of the local party Friday evening, April 4. It was announced yesterday. Hayes will attend a banquet in his honor at the Californian Hotel at 6 o'clock, and then will be present at an open meeting at 8 o'clock at the Odd Fellows Hall. Hayes is being accompanied on his trip by Frank Garrison, grand trustee for this district.

The waters of the Gulf of Panama are among the calmest of any in the world.

Aged Donor of Corner-stone Bourbon Dies

(EXCLUSIVE DISPATCH)

TOMBSTONE (Ariz.) March 23.—The death in the State Hospital here of Frank Platts reminds old-timers that a quart bottle of bonded Bourbon whiskey is sealed in the cornerstone of the Cochise County Courthouse in Tombstone. It was placed there in 1881, at the formal dedication of the structure's foundation by the donor, Platts, at that time a stage driver on the Tucson Road.

He then was known as "French Frank" and was renowned as a six-horse whip of rare ability. For years he was drayman around Tombstone, till sent to the Pioneers' Home two years ago. He was a native of Paris, 82 years of age, and it is said that he moved the Courthouse prove successful, there is speculation over what might be done with the contents of the box in the corner stone.

MILITARY PRISONERS ARE GIVEN LIBERTY

(BY A. P. NIGHT WIRE) LEAVENWORTH, (Kan.) Mar. 23.—Five military prisoners, whose cases were heard by a special War Department investigating board several weeks ago, were given their freedom today. Four of the men were serving terms in the Federal penitentiary and one was a prisoner at the disciplinary barracks at Fort Leavenworth. Those released included Samuel Johnson, negro, San Francisco, serving ten years for robbery and John Fitzgerald, San Francisco, serving five years for larceny and desertion.

ONE WORD

THIRTY-FIVE years ago, a group of Los Angeles men organized a Bank. They cast about for a name which would express the intended policy of the institution, and chose—

SECURITY

Under the same management ever since, that name has come to mean to Los Angeles people a policy in banking in which the safety of the depositor's funds is always the first consideration—then SERVICE—everything a Bank can do to further the progress of the community, to aid its patrons. It is this policy that has developed these figures:

Over 275,000 Depositors
Over \$200,000,000 Assets

TRIANGLE WATER HEATER

AUTOMATIC

Ships in port keep steam up for ready use. Experience proved it cheaper and more efficient to keep boilers hot than to reheat them over and over.

The Triangle applies this principle to your hot water needs. Cold water is heated once and thereafter the economical Bunsen burner keeps it hot until used.

Drawing moderate amounts of hot water will not light the main burner, only larger draughts bring it into action to maintain the tank temperature. The high-grade insulation minimizes loss by radiation.

Just open the faucet, hot water flows immediately and constantly. It's always hot, ready for use.

Santa Barbara

Some Things You Should See

Ask for the chief point of interest here and every Santa Barbara will spontaneously tell you: "The Mission." Which is a tribute not only to California's best preserved mission, but to all the glorious past for which it stands in California's history.

Then would be enumerated a score of things—the house where the Rosary was written—the millionaire colony at Montecito—Miramar—the Museum of Natural History—the Hope Ranch—Veronica Springs—Painted Cave—and, with special emphasis, the Spanish Plaza, or "Street in Spain" right in the heart of the business district.

From one to a dozen trips to the Channel Islands are also recommended. You can spend a month visiting their picturesque camps, fishing along the shores and sailing in and out of tiny harbors and grottoes where sea-lions live in droves. In the Channel motor boating and yachting are popular sports, reaching their climax in the great annual Santa Barbara Regatta.

Santa Barbara is reached by a three-to-four hour motor car drive from Los Angeles, or by Southern Pacific trains, Pickwick stages and coast-wise steamers. Ten-day stop-over allowed on all Southern Pacific tickets bought outside of California.

Your interest in Santa Barbara may take a more permanent trend than simply sight-seeing. In that event, send us the attached coupon and we shall gladly give you full information.

Resorts

World's Highest Waterfall, Greatest Rocks and Biggest Trees

Nature's sublimest expressions are to be found, as a rule, far from cities, to be reached only by long and arduous traveling.

But in California it's different!

Yosemite Valley, masterpiece of the Creator, is just overnight from Southern California—you can have luncheon tomorrow in full view of the 2565-foot drop of Yosemite Falls, the highest of all cascades. Not far away are the world's greatest monoliths—Half Dome and El Capitan. Truly magnificent—the oldest and biggest of all living things—are the mighty Sequoias in the Mariposa Grove of 600 Big Trees, reached by a pleasant motor trip from Sentinel Hotel.

It's springtime now in Yosemite—don't miss seeing the Park while you are in California. Ask for folders.

ROXIE TO FINISH STORY OF DEALS

Miss Stinson to be Grilled in Daugherty Quiz

May Match Her Wits With Mrs. Willebrandt

Contempt Fight Probable on Bank's Books

(BY A. P. NIGHT WIRE)

WASHINGTON, March 23.—The

third week of the Daugherty investigation

opens tomorrow with Miss

Roxie Stinson, divorced wife of the

late Jess Smith, friend of Atty.-

Gen. Daugherty, ready to conclude

her story alleging deals in whisky,

prize-fight films, drugs and big

politics.

Tomorrow Miss Stinson is to un-

dergo cross-examination with the

bare possibility of a matching of

words with Mrs. Willebrandt, As-

sistant Attorney-General. Arrangements

have been made to have Mrs. Wille-

brandt, who followed the testi-

mony all day yesterday, under-

take the examination, but a Fed-

eral grand jury engagement may

prevent what promised to be a

spectacular duel.

"DEALS" LOOKED INTO

In closing her story, which

opened the Daugherty investiga-

tion, Miss Stinson is to finish re-

viewing her letters from Jess Smith

and other papers, which, she says,

support her long tale. La victoria

Smith, Mr. Daugherty and others

of the Attorney-General's office,

and personal entourage.

The Dempsey-Carpenter prize-

fight film exhibition "deal" and

whisky "deals," including the

\$120,000 New York bootlegging

story given by John Goran, also

are to be pursued further this

week. Fred C. Quimby, New York

partner of Tex Rickard, in the film

affair, and William A. Orr, New

York Republican politician, con-

nected in the testifying what both

the film and New York whisky

transactions, are under orders to

return here tomorrow. Both have

been ill since their first appearance.

Further developments are prom-

ised with M. E. Daugherty, brother

of the Attorney-General, over ac-

culation of the books of his bank,

the Midland National at Washing-

ton Courthouse, O. A contempt

fight in the Federal courts ap-

peared tonight to be the probable

result. Word from Ohio today

that Mr. Daugherty would refuse

the committee unlimited access to

the bank records brought from

Senator Wheeler, Democrat, the

statement that the committee

would "go the limit" in enforcing

its demand.

Inspection of all customers' ac-

counts is the demand upon which

the committee and the bank have

divided. The Attorney-General

has refused to let the committee

have the accounts of customers which

are relevant to the investigation

should be subjected to committee

inspection. Senator Wheeler

threatens to require submission of

the original books here if Mr.

Daugherty refuses to let the com-

mittee inspect the books. A com-

mittee inquiry by a committee representa-

tive.

NEW FILMS SHIPPED

(BY A. P. NIGHT WIRE)

NEW YORK, March 23.—Motion

pictures of the Dempsey-Fir-

po boxing match, which were ex-

hibited here last September, have

been shipped about the country

and shown in various cities in vi-

olation of the law, similarly to those

of the Dempsey-Carpenter fight,

which a Senate committee has been

investigating. The New York World

will say tomorrow.

The newspaper has information

that the "system" of arrests and

fines, alleged to have been fol-

lowed in the Dempsey-Carpenter

fight, was not the procedure with

the Dempsey-Firpo film, but that

in most instances the latter were

shown without any interference by

officers of the law. Officials of the

Department of Justice will be

quoted as authority for the infor-

mation that the department made

no effort to learn the facts of the

situation but that it will prosecute

every alleged violation brought to

its attention.

The Dempsey-Firpo film, the

World will say, were shown in Chi-

cago for two months without Fed-

eral interference, despite the ef-

forts of municipal authorities to

stop the exhibition. Neither did

Federal authorities interfere in

Cincinnati, according to the news-

paper, but the exhibition there was

stopped after two weeks by the

State film censors.

Charges were filed against Fred

C. Quimby of New York, named as

one of the alleged conspirators in

the Dempsey-Carpenter pro-

cedure; and Alexander Panagou,

theater owner, was indicted in Los

Angeles after the pictures were

shown there, and their cases have

not been dismissed. The World

will point out. It will add that in

San Francisco the exhibitors were

fined but continued to show the

films.

Officials of the Department of

Justice here said that the district

attorneys in the places named by

the World probably were investi-

gating these supposed violations.

They pointed out that if there was

any violation it was in the trans-

portation and not the exhibition

of the pictures, and consequently

the violations might have occurred

outside their jurisdiction. In such

circumstances, the officials said the

apparent delay was explicable.

FIRE IN STORE COSTLY

(EXCLUSIVE DISPATCH)

MILWAUKEE, March 23.—Fire

unknown origin caused a loss

of more than \$50,000 to the build-

ing and stock of the Boston De-

partment Store at New Richmond.

The blaze was discovered in the

basement of the store late at night

but an all-night fight failed to

bring it under control.

NOTICIAS MUNDIALES DE LA ULTIMA HORA

En obsequio a nuestros numerosos amigos de habla española, y para beneficio de los lectores americanos de "The Times" que estudian el español, esta columna en castellano, con un extracto de las más importantes noticias de última hora.

Buena parte del futuro progreso de Los Angeles, que es la metrópoli de los Estados Unidos que más crecen se halla a territorio latino-americano, habiéndose dependido de las relaciones que logremos establecer con nuestras hermanas, las repúblicas del sur. Para que lleguen a ser enteramente cordiales, no hay nada tan importante como que nuestros ciudadanos se familiaricen con la lengua castellana. Tan se dan cuenta de este hecho nuestros habitantes, que hoy al presente más de 25,000 personas que estudian español en Los Angeles. A ellas les conviene leer todos los días esta columna, en la que encontrarán español correcto y enteramente moderno.

NOTAS TELEGRAFICAS

No se Encuentra Todavía un Líder Democrático.

WASHINGTON, Marzo 23.—Ha

llegado el tiempo en que sin re-

serva puede decirse que no hay nin-

gún aspirante a la designación

presidencial democrática, que tenga

probabilidades de ser nombrado

cuando se reúna en Nueva York

la próxima convención de Junio.

Por lo que al presente se ve,

mucho de lo que habrá mu-

chos escrutinios en la convención,

antes de que resulte algún can-

didato con las dos terceras partes

de los votos.

Hay por lo menos doce o quince

personas que se ofrecerán al estu-

dio de la convención, y podría a

última hora salir victorioso al-

gun "caballo oscuro" que saliera

a la palestra.

De los candidatos reconocidos,

no hay uno de los que está hacien-

do progresos dignos de mención. Wil-

liam McCade, de California, está en

mejores condiciones que cualquiera

de los demás. La victoria que

March SERIES OF FURNITURE STYLE & VALUE EVENTS at Barker Bros.

LUCULLUS said:
"Show me a man's house and I will read you the man." Beyond doubt he meant the **INSIDE** of the house and its assemblage of things, with which man lives. For it is by the congregation of things with which we have chosen to live that we show what we have mastered of discrimination, what we possess of taste, how much with judgment we are endowed. When we see a home notable for the beauty or comfort or utility of the things within which make it home—we are viewing a cross-section of its owner's culture. A successful home helps people to be more successful.

Dramatic Month-End Clearance of Living Room Furniture! Odd Upholstered Suites, 33 1/3% Less!

Where one-of-a-kind remains—where a pattern is discontinued—all thought of former pricing or rightful value is disregarded. New prices become effective—prices so low as to assure immediate clearance of every piece included. Suites of tapestry, velour, mohair—wide choice of type—even with limited number.

Group of about 20 Decorative Living Room Pieces, 50% Less
very fine types, available in this Month-End event at—

75 Library and Davenport Tables, Now 25% Less!

A group that undoubtedly includes the type of your choice—no matter what finish or style that you have in mind. Selection from this group means a saving of one-fourth.

100 Upholstered Chairs and Rockers, 33 1/3% to 50% Less

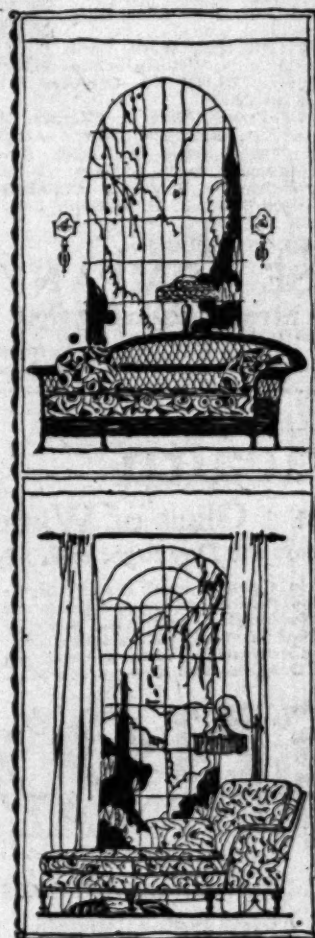

Coverings very desirable—including, velours, mohairs, tapestry—types ranging from small, slender line chair to great large ones. Savings varied and great.

100 Pieces Reed and Fibre, 25% to 50% Less

If you have discovered the value of color in every room—and the adaptability of reed and fibre with all types of furniture—this selling of odd chairs, tables, suites, in galaxy of colorings will be of instant appeal.

12 Chaise Longues, Now at 33 1/3% Reduction!

Coverings are varied—some distinctive stripes—figured materials—all very rich in appearance—all featured at special prices in the beginning—now further reduced for March month-end selling!

Breakfast Nook Set Special at \$28.75

Decorated? Why of course—this one in particular a most inviting white enamel with morning glory decoration. The table is oblong, as it should be for convenient use in kitchen nooks or small breakfast rooms. The table and two chairs at \$28.75 constitute one of the finest values in the entire and extensive breakfast room department. Other decorations at various prices.

Twenty Vanity Dressers \$38.75

Formerly \$62.50—so you may judge for yourself how important a saving this special pricing means to the twenty who make selection before it is too late. Combination walnut and gumwood—65 inch height—44 inch width—center mirror 16x36, wing mirrors 10x26—four drawers and center shelf. All in all—a graceful, beautiful piece to add to your bedroom furnishings.

Large Fluffy Blankets \$6.50 Pair

Beautiful silver gray with borders of rose, lavender and blue—a weight—a quality that is far beyond what is usually possible to buy at \$6.50 a pair. Size 66x80.

Snow-white blankets with dainty colored borders—bound to match, equally splendid of weight and inviting softness—priced very low for March at Barker Bros. \$7.50 Pr.

100% pure virgin wool blankets—beautiful block plaids in rose and white, blue and white, tan and white, lavender and white or gray and white combinations; Special \$11.85 Pr.

Cabinet Gas Range, Special \$39.75

What wonders are being accomplished at Barker Bros. in the small stove—of large capacity—at very low prices! This one—very special—with fine large oven and broiler—white enamel burner tray and broiler—cast-iron front and cooking surface—the body and linings made of Keystone copper bearing rust-resisting steel. The oven bakes things "to a turn"—one burner for both oven and broiler making the operation economical. With white splashers, \$44.75.

Bengal-Oriental Rugs Featured \$165

The world's most renowned reproductions of Oriental rugs! Woven entirely of imported, oriental yarn—washed just as the orientals are—with the result that subtlety of color—beauty of design are all that the most exacting could wish for. Only at Barker Bros. are Bengal-Orientals to be found in Los Angeles! Size 9x12 at \$165—8x10 at \$150—and other stock sizes are great values at these mark-downs. Special sizes may be ordered in this type of rug.

Sim Crabill says

"Modern methods have placed within easy reach, protection or insurance, against almost every sort of loss. Advertising, in the eyes of today's successful executive is not only a means of securing business but a very definite and valuable insurance against loss of business!"

CALIFORNIA Bank has found in creative printing, an effective and economical means of advertising their spacious Safe Deposit Vaults and one that will produce worthwhile results.

Their latest order, 10,000 copies of two new booklets, "Safeguarding Your Property" and "Mrs. West Saves the Day,"—printed in two colors and specially bound—has just come from our presses. The entire job: layout, copy, art work and engravings were all planned and executed in our own organization.

If you are interested in knowing the service Times-Mirror Printing and Binding House has to offer you—if you would like to see copies of these new booklets which will give you an idea of the completeness of this service—call 875-631.

PLANS NEW DAM FOR SALT RIVER

Valley Association Hopes Early Construction

Project Would Give 35,000 More Horsepower

Cost is Estimated at About Four Millions

PHOENIX, March 23.—Further expenditure of \$4,000,000 is contemplated by the Salt River Valley Water Users' Association for early construction of the Horse Mesa Dam across Salt River, twelve miles above the smaller dam now being built at Mormon Flat. The new structure, as planned, is to be a monolith of rubble stone and concrete, 248 feet in height, 140 feet wide at stream level and 400 feet wide at the top. Bedrock has been found at slight depth.

Though the dam is designed to store much water, at times backed to the foot of the Roosevelt storage dam, upstream, it will be built especially for the generation of electric current, with expectation of the development of 35,000 horsepower.

Offer for the purchase of the greater part of this already has been made by the Inspiration Consolidated Copper Company of Miami, which is reported to have agreed, for a twenty-year period, to be an electrical customer to the extent of at least \$500,000 a year, with possibility that the power bill will approximate \$1,000,000 a year.

From hydroelectric power now generated, mainly at Roosevelt, the association has an annual revenue of \$250,000. Completion of the Mormon Flat dam, enabling full-time operation of an enlarged Roosevelt power plant, is expected to add \$400,000 to the annual revenue from power sales income.

It, therefore, is figured that gross income from power generated through construction of the three dams and by means of works at canal drops, may approximate \$2,000,000 a year. Even less than this would repay the government the annual repayment charge of \$200,000, interest on the construction bonds and all operating expenses.

The proposition is to be submitted in May to the farmers who are the shareholders of the valley association.

ATTACK ARREST MADE
FERNANDO, March 23.—Accused of assault with a deadly weapon, William Jackson was arrested at police headquarters yesterday by Detective Sergeant Clifford Sayre. He was taken before Police Judge James G. Crichton, who ordered him released on his own recognizance.

IOWAN TRIES TO BURN SAVINGS

Cedar Rapids Man Felled In Purpose by Arrest as Inebriate

DES MOINES, March 23.—Frank Harnish of Cedar Rapids gave Main street a thrill yesterday afternoon while he tried to burn his fortune. Harnish drew his entire life savings, \$2075, from a bank and set fire to several \$20 and \$50 bills. Police prevented him from pursuing the expensive pastime. He was charged with drunkenness.

IMPORTERS WIN IN MEXICO TAX FIGHT

NOT REQUIRED TO REPEAT DUTY PAYMENT AFTER GIVING TO REBELS

MEXICO CITY, March 23.—The importers won out after a month's fight when the Treasury Minister issued a notice that the government will not collect duties again from the importers forced to pay duties to the insurgents during the occupation of the port of Vera Cruz. It is officially stated that this provision also will apply to port on the Pacific Coast occupied by the rebels.

The Treasury Department stated that the government has obtained a loan of \$10,000,000 from bankers with which to tide it over the present financial difficulties. The loan is needed to pay back salaries to government employees, especially teachers, which are from a month to two months behind because the larger part of the government income went to pay the expenses of putting down the revolt. The loan is said to be advanced by New York and San Francisco bankers. Simultaneously with the contraction of the loan notice was given that the teachers will be paid monthly.

LEAVES LEGION AS PROTEST TO BONUS

(BY A. P. NIGHT WIRE)
NEW YORK, March 23.—Brig. Gen. Lincoln C. Andrews, retired, who commanded the One Hundred and Seventy-second Infantry Brigade of the Eighty-sixth Division in the World War, has resigned from the American Legion as a protest against the adoption of the bonus bill by the House of Representatives.

HOW TO MAKE A TELEPHONE CALL ON AND AFTER SUNDAY, MARCH 30th

ALL SUBSCRIBERS

Should obtain the correct number from the RED COVERED Telephone Directory.

MACHINE SWITCHING SUBSCRIBERS:

Should dial the first two letters (capitalized) of the office name, followed by the four numerals of the number (and suffix letter, if any), in order:

For Example:—

To call TRinity 0891
dial T-R-0-8-9-1

To call HUmbolt 7799-J
dial H-U-7-7-9-9-J

Do Not Dial "9" to obtain connection with a Manual Telephone.

Please see General Information Pages in the RED COVERED Directory for complete information on how to use machine switching (automatic) telephones.

MANUAL SUBSCRIBERS:

Should give the number to the operator, using the whole central office name, as at present.

For Example:—

To call MAin 0196
say Main Oh, one, nine, six.

SOUTHERN CALIFORNIA TELEPHONE COMPANY

FREE

Give your pores their early childhood fineness

ACCEPT Monsieur Vivaudou's GIFT NOW

The secret of a beautiful skin is just this: If the pores are large there can be no beauty.

Simple, isn't it? So simple that it was overlooked for ages. And that is the problem, so long the despair of beauty specialists of the world, which Vivaudou has now solved in his cream of creams which keeps your complexion young because it keeps your skin young by keeping the pores young.

Accept This Gift

Then, then, it comes, as a gift for you from Paris—Vivaudou's new Astringent Cream, a cream on which rests the great genius of Vivaudou—centered—a cream which maintains the beauty of the skin by restoring the beauty of the pores so that dirt and foreign matter cannot enter, nor the oils of the skin escape to leave the skin harsh and rough.

Vivaudou wishes you to prove this yourself without spending a penny. He has authorized his distributors to present you with a sample with compliments. Be sure to accept it. Which you will also receive, also with compliments, an interesting booklet on skin care and their uses.

The Result

No more sagging skin; no more unclogged pores; no more rough skin texture; no more flaking face powder due to the escape of the oils of the skin. Instead, a naturally young, clear, firm and radiant complexion, yours for the asking. Vivaudou's Astringent Cream comes as a fitting addition to the three other

childhood fineness of your pores restored. You will glory over the new "satin-smoothness" of your skin—its freedom from the slightest rough spot or blemish—its firmness, and the glow of health due to the fact that every tiny blood vessel will be functioning normally instead of being hampered by a coarse skin full of impurities.

Also This

You will also find that you will be able to keep your skin in good condition more easily, because foreign matter cannot enter the pores to choke and distend them or to cause unsightly blackheads.

And your face powder will be invisible because of the new smooth texture of your skin and its freedom from that oiliness which formerly caused face powder to become flaky, as a result of which the powder had to be constantly renewed.

Do Not Delay

Be sure to get your sample of Vivaudou's Astringent Cream without delay. The splendid results will be apparent immediately. Your skin will be better in every way—in appearance, texture and feel.

Vivaudou's Astringent Cream comes as a fitting addition to the three other

superb Vivaudou creams used the world over by women zealous for their fine complexions. They are: Vivaudou's Solidified Cream of Almonds, Vivaudou's Tissue Cream, and Mavis Cold Cream—making four creams among which may be found the particular combination for any particular skin requirement.

Use the Coupon Now

All you have to do to obtain your free sample and helpful book is to present the attached coupon at any of the stores named.

No cost, no obligation, no red tape. So, use the coupon immediately. You will be glad you did, for Vivaudou's Astringent Cream will bring to your skin the fineness and smoothness which it had in early childhood.

COUPON GOOD FOR FREE SAMPLE

COUPON

This coupon, when presented at any of the stores mentioned in this advertisement, is good for free sample of Vivaudou's Astringent Cream and Booklet on Creams and Their Uses. No charge, no obligation.

Congress to Decide on Air
and Printing Quizzes

Five Are Now in Full Blast
and Three Inactive

Important Legislation Due to
be Considered Soon

(BY A. P. MORT WIRE)
WASHINGTON, March 23.—With five investigations in full blast and two or three in a state of temporary quiescence, Congress tomorrow is expected to decide whether two more shall be added to the list—investigations of the aircraft industry and of the Bureau of Engraving and Printing. The Daugherty investigation, the Teapot Dome investigation, the Shipping Board investigation and the Revenue Bureau investigation, will take up where they left off last week and the investigation of alleged land frauds in the Rio Grande Valley of Texas, as led by Senator Heflin, Democrat of Alabama, will begin. Investigation of charges against two members of Congress by Chicago grand jury has been authorized, but is held up waiting action of a Washington grand jury which is hearing evidence in the case.

TWO INACTIVE
The diploma mill investigation, headed by Senator Copeland, Democrat of New York, for the time being is inactive, as is the Senate's propaganda investigation. The House must vote on resolutions by Representative Nelson, Republican insurgent of Wisconsin, to investigate the aircraft industry, and by Representative King, Republican, Illinois, to investigate charges of bond duplication in the Bureau of Engraving and Printing. Meanwhile certain Senators contemplate demanding an investigation of Red River oil legislation passed in the closing days of the last Congress. Business in the Senate in the way of legislation this week will center largely around a bill to tax gasoline in the District of Columbia; the proposal of Senator Wadsworth, Republican of New York, to give States the power to affirm or reject the action of legislators in passing on Constitutional amendments; action by the Agricultural Committee on a reforestation policy measure offered by Senator McNary, Republican of Oregon, and possible decision in the Senate on the McNary-Haugen farm relief measure. No appropriation bills are pending in the Senate.

GERMAN RELIEF UP
The House will take up tomorrow the Fish resolution for a \$10,000,000 appropriation to purchase food supplies for relief of German women and children and the two resolutions authorizing aircraft and Bureau of Engraving investigations. All of the proposals are expected by leaders to be adopted.

Tuesday the House will resume debate on the army bill, which began yesterday and during the week the independent officers appropriation bill will be reported and taken up when the army bill is out of the way. The immigration bill and the Chandler-Bloom election contest from New York are expected to follow.

Some leaders expect the House Agricultural Committee to report a farm relief measure during the week. The Judiciary committee is expected to present a resolution for a child labor Constitutional amendment on which Representative Longworth, Ohio, the Republican leader, has said there will be action at this session.

Recognition of Heroism Acts Long Deferred

(EXCLUSIVE DISPATCH)
PHOENIX, March 23.—Recognition for bravery, after a lapse of twenty-five years, has been extended Col. H. A. Hanigan, instructor detailed to the National Guard of Arizona. He has been notified of citation for "gallantry in action against insurgent forces at Tabuana, Negros, Philippine Islands, August 1, 1899, and on October 1, 1899." He then was a second lieutenant in the Sixth Infantry. In each instance the action was an attack on a fortified point.

PURCHASING AGENTS OF ARIZONA CONFER

(EXCLUSIVE DISPATCH)
PHOENIX, March 23.—A conference of purchasing agents for the larger mines and industrial plants of the State, called by the Arizona Industrial Congress, which is making efforts to secure the use of Arizona products, has been held here. The mining corporations and railroads especially report large increases in the amounts spent during the past year for Arizona products, mainly for agricultural supplies and lumber. Need of better standardization was told by W. P. McCormack, western purchasing agent for the Harvey Hotel system.

VIRGIN BIRTH DENIAL WINS CHURCH DEBATE

(BY A. P. MORT WIRE)
NEW YORK, March 23.—Rev. Charles Francis Potter, pastor of the West Side Unitarian Church and exponent of religious modernism, was awarded the decision of the judges of a debate tonight with Rev. Dr. John Roach Straton, pastor of Calvary Baptist Church on the question: "Resolved, that the miraculous virgin birth of Jesus Christ is a fact and that it is an essential Christian doctrine." Dr. Potter upheld the negative.

MRS. J. P. FRANCIS DEAD

(EXCLUSIVE DISPATCH)
ST. LOUIS, March 23.—The body of Mrs. Jane Perry Francis, wife of David R. Francis, former mayor of St. Louis, Governor of Missouri and Ambassador to Russia, arrived yesterday from San Antonio where Mrs. Francis died Friday of heart disease. The funeral will be Tuesday. Mrs. Francis was the daughter of John D. Perry, "war" hero of age. She is survived by her husband and six sons.

FOR SKIN TROUBLE

Zemo, the Clean,
Liquid, Just What You
Need
Don't worry about
other skin troubles. You
can't get a clear, healthy
Zemo obtained at any
for 25c, or extra large
\$1.00.
Zemo generally removes
Blackheads, Blisters,
Ringworm and makes the
skin clear and healthy. Zemo
penetrating, antiseptic,
is easily applied and
always dependable.
25c—Zemo Ointment.

Last Minute News From Petroleum Fields and Marts of Trade

MUCH ACTIVITY
IN KERN COUNTY

Twenty New Derricks Are
Expected Soon

Many Leases Reported at
Poso Creek

Added Oil Territory for This
District

BAKERSFIELD, March 23.—
More than twenty new derricks
will rise on the hills of the Poso
Creek district in the oil fields of
Kern county within the next few
months, it is asserted, as a result
of the many leases that have been
taken up on land in that section.
The leases call for immediate
drilling and as there are several
companies concerned in recent
deals there should be a great deal
of activity soon.

J. M. Kellerman of Los Angeles
and his associates have leased
eighty acres of land from T. A.
Piper in section 15, 24-28 and will
be the first to get started.

Mr. Piper is preparing to put his
No. 1 well on the beam within a
few days. At present a landing
is being sought for the casing in
the No. 2 well for the purpose of
making a cement job and a test for
water shut-off. Rig timbers have
arrived for the No. 5 well on the
northwest quarter of section 15,
24-28.

The Poso Creek district in which
Mr. Piper is drilling is an entirely
new oil territory for Kern county
and with the success of the first
wells, a large area north of the
old Kern River fields will be
proved up. Geologists have been
watching with keen interest the
drilling of the test wells.

Eight tests for water shut-off
were reported during the past
week in Kern county wells. Four
in the Elk Hills and two each in
the Sunset and Midway districts.

Three of these wells are owned by
the Pacific Oil Company, two of
which are in the Elk Hills, No. 34
on section 25, 20-24 and No. 59
on section 27, 24-28. The Midway
well is No. 47 on section 21, 21-24.

The Stabler Oil Company has
successfully tested its No. 1 well
on section 25, 21-24 in the Mid-
way, while a similar task has just
been accomplished by the Western
Minerals Company in its No. 33
well in the Sunset field. The Elk
Hills Development Company reports
a test for water shut-off in its
No. 1 well, section 14, 30-32 in
the Elk Hills.

KERN COUNTY WELLS
UNDERGOING REPAIRS

BAKERSFIELD, March 23.—The
Associated Oil Company is repair-
ing three of its Kern county wells
in the hope of increased produc-
tion. They are the Nos. 40 and No.
16 on sections 5, 29-28 and 31,
29-28 respectively, in the Kern
River field; and the No. 11 on sec-
tion 13, 26-20 in the Lost Hills
field. The General Petroleum Cor-
poration is repairing two wells in
the Coalinga field, these being the
Nos. 4 and 26, both located on
section 6, 20-15.

MEXICO'S TOTAL
OIL YIELD TOLD

Year's Official Figures Are
135,575,534 Barrels

Decrease is Shown Below
Production of 1922

Explorers Active Seeking
New Deposits

By JACK STARR-HUNT

MEXICO CITY, March 23.—
The petroleum production of Mex-
ico for 1923 has now been definite-
ly fixed by a special department
of the Ministry of Finance charged
with the collection of taxation.

The official figures, in barrels,
are 135,575,534, while the quantity
exported during the year is given
at something more than 149,000,-
000 barrels, the difference being
accounted for by the fact that
most of the companies were forced
to draw upon their reserve stocks
in order to keep pace with their
contracts.

The production showed a de-
crease below the 1922 figures, but
here it must be borne in mind that
the 1922 production was the high-
est in Mexico's oil history, and
also that the most intensive pro-
ducing zone, that of Tuxpan,
showed signs of giving out in 1923.

On the latter account there was
a world-wide opinion that Mexico
was about to lose her place as sec-
ond largest producer in the world,
but a reaction set in at the Panuco
fields, which increased the produc-
tion enormously and more than
leveled up the loss. This was a
welcome surprise to oil experts in
Mexico, considering that the Panuco
district has been in constant
exploitation for eleven or twelve
years.

Now that Mexico's latest produc-
tion is practically stamped out,
there is optimism in all Mexican
oil circles regarding the current
year's production, especially as the
local view is persistent that some
American oil sources, particularly
in California, are likely to show
a much decreased production.

Mexico City authorities have
been almost overworked during
the last six weeks granting per-
mits for exploration work and bor-
ings, and with the growing demand
for oil the world over, especially
its derivatives, such as gasoline,
Mexican interests expect to be
called upon for every barrel which
can be supplied to make up for
a probable shortage in the United
States. Harry F. Sinclair, prior to
his recent trip to Europe, ex-
pressed his definite opinion that
there would assuredly be a big
oil shortage this year in the United
States.

EXPLORERS ACTIVE

A sign of the times in Mexican
oil is the fact that for the last
two months or more, a group of
European geologists have been ex-
ploring the State of Coahuila, for
the purpose of locating oil deposits
which that State is known to
possess.

NEW WELL EVENT OF WEEK

Completion in Torrance Field by Shell Company at
3904 Outstanding Development

Overhauling all other developments in the Torrance field during the last week was the successful completion on Saturday of the Shell Company's March No. 1-A, in the southeast area, at a depth of 2904 feet. The output of this well, which is the deepest producer in the field, was estimated by Shell's field men at 1600 barrels. It was impossible Saturday to get an accurate gravity test because of the high percentage of mud still in the oil, but it is expected to range around 21.5. The oil is free of water.

The new Shell producer is just north of Redondo Road, and about 200 feet east of a line marking the extension of Western avenue. It is offset on the west by the Standard's Interstate No. 2, completed at 3850 feet, and on the south by the Sentinel's Joughin No. 1, completed at 3820 feet.

The latter has proven to be one of the best producers of the field. Since December 14, last, when it was brought in, it has put out more than 160,000 barrels of oil. It is believed that the well is coming in below the shoe and not from the bottom of the hole.

The Shell's March No. 1-A was completed at 2904 feet, giving the hole 300 feet of oil formation. It is apparent from the production of March 1-A that the sand encountered in the last fifty feet of the drilling was the oil formation, and is responsible for the increased flow of the well.

At the same time the Shell decided to drill deeper into the sand. It also undertook to test the formation 100 feet above the level at which the wells in the far south-east district had been cemented off. Saturday, Kettler No. 5, the test well, was found to be wet and was cemented off at 2500 feet. The depth at which it was first cemented. As yet the Shell field men are not certain whether it is a sand or a water zone.

Should the Shell be successful in shutting off at a higher level, it will give this well an additional 400 feet of oil formation to produce from. Until a few weeks ago, the No. 2 well of 2500 feet had been discovered.

DISAPPOINTMENT MET

E. J. Milley met with disappoint-
ment in his deep drilling test in
Torrance No. 2, located at the
southeast corner of Redondo Road
and Normandie avenue. Water
showed up in the well Saturday
morning when it was tested for
production. This well is located
about a mile east of the Shell's March
No. 1-A. Milley's field men fol-
lowed the development in the
Shell well closely, and most of
the distance kept their well be-
hind the Shell's test hole. From
3440 feet the Milley well was cored
down to a depth of 3912 feet, where
a hard shale was encountered and
drilling halted.

None of the lower cores in the
well looked at all like the Shell's
Milley's field men felt when the
oil sand ended on top of the hard
shale. The water trouble in this
well is not only puzzling to Milley
crews, but all the other oil men
in that section as well. There is
a structural dip to the east, and
with the Shell well dry at 3904
feet, there is every reason to be-
lieve that a well located where
the Milley Torrance No. 2 stands
would be safe twenty feet below
that depth. There is no certainty
as yet that the water is coming
from the bottom of the hole. It
is believed that it has broken
through the shale picked up in the
last core.

FEARS DISPELLED

When it was learned that the
Milley well was wet it was feared
for a time Saturday that the Shell's
March 1-A had met the same fate,
but tests soon dispelled these fears.
However, the Pan-American well
had drilled its Knappe No. 1 to 2890
feet, and the Superior, which had
drilled its Torrance No. 17, to 2890
feet, were fearful that they might
have run into water. The Superior
crew on No. 17 put off attempting
to bring in their well until they
received word that the Pan-Amer-
ican well was flowing in the pump
and was a "dry job." The flow
of the Pan-American well, 24th
is midway between the Shell's
March 1-A and Milley's well, had
not been gauged up to Saturday
night, but it was estimated that it
would make at least 1000 barrels
and possibly more.

Other important developments in
the east side of the field was the
report that the Standard had
picked up oil sand as deep as 3902
feet in its Kettler No. 11, which
in thirty days ago on the pump,
and the preparations of the Super-
ior to bring in its Torrance No.
13, in the south end of the Tor-
rance industrial tract. The Stan-
dard's Kettler No. 11 is about a half-
mile due south of the Shell's
March 1-A, and of the original
completed at 3842 feet. Its initial
production was only seventy-five
barrels and the sand was not
drilled. This production was ap-
pointing in face of the fact that
the Julian Petroleum Corporation's
No. 13, in the south end of the
field, had started off at 160 barrels.
The additional sixty feet of oil for-
mation, gives a very encouraging
outlook for hundreds of acres extend-
ing on to the east.

The Superior's Torrance No. 13,
drilled to a depth of 4655 feet
and plugged back to 3855 feet, is
a considerable distance farther

than the Shell's March 1-A, which
is just north of Redondo Road, and
about 200 feet east of a line mark-
ing the extension of Western avenue.
It is offset on the west by the
Standard's Interstate No. 2, com-
pleted at 3850 feet, and on the south
by the Sentinel's Joughin No. 1,
completed at 3820 feet.

The latter has proven to be one
of the best producers of the field.
Since December 14, last, when it
was brought in, it has put out
more than 160,000 barrels of oil.
It is believed that the well is
coming in below the shoe and not
from the bottom of the hole.

The Shell's March 1-A was com-
pleted at 2904 feet, giving the
hole 300 feet of oil formation. It
is apparent from the production
of March 1-A that the sand en-
countered in the last fifty feet of
the drilling was the oil formation,
and is responsible for the in-
creased flow of the well.

At the same time the Shell de-
cided to drill deeper into the sand.
It also undertook to test the for-
mation 100 feet above the level at
which the wells in the far south-
east district had been cemented
off. Saturday, Kettler No. 5, the
test well, was found to be wet and
was cemented off at 2500 feet. The
depth at which it was first cen-
mented. As yet the Shell field
men are not certain whether it is
a sand or a water zone.

Should the Shell be successful in
shutting off at a higher level, it
will give this well an additional
400 feet of oil formation to pro-
duce from. Until a few weeks
ago, the No. 2 well of 2500 feet
had been discovered.

DISAPPOINTMENT MET

E. J. Milley met with disappoint-
ment in his deep drilling test in
Torrance No. 2, located at the
southeast corner of Redondo Road
and Normandie avenue. Water
showed up in the well Saturday
morning when it was tested for
production. This well is located
about a mile east of the Shell's March
No. 1-A. Milley's field men fol-
lowed the development in the
Shell well closely, and most of
the distance kept their well be-
hind the Shell's test hole. From
3440 feet the Milley well was cored
down to a depth of 3912 feet, where
a hard shale was encountered and

had been discovered.

ORCHARD DALE
TO HAVE TEST

Santa Fe Springs' Neighbor
Alive With Drillers

Concerns Busy Prospecting
on Leased Acres

Showings Declared to be of
Exceptional Nature

BAKERSFIELD, March 23.—The
Orchard Dale section lying
east of the Santa Fe Springs
section is due for a thorough test
within the next few months. Sev-
eral of the larger oil companies
are completing drilling contracts
with local ranchers which require
drilling activity within the next
100 days.

The Associated Oil Company has
nearly 250 acres under contract
there, and with the exception of
seventeen acres held by the Stan-
dard Oil Company, it is in one sur-
vey. The Shell Company has 1800
acres in all. It is asserted that
the Orchard Dale section is worth
\$10 an acre per year in oil. The
majority of the leases which the
Shell Company is completing in this
section are for three years.

There are several other com-
panies, including the Marland Inter-
national, which are planning to pro-
duce in this area. There has been
so far no real test of the Orchard
Dale section, although the Stan-
dard Oil Company has drilled two
wells to a great depth on the
Brown-Kearney lease, which lies
east of Santa Fe Springs, but they
have been far enough from the Or-
chard Dale section to have but little
bearing, except to define the field
on that side.

SHOWINGS ARE GOOD

The Scientific Oil Company has
drilled a well 4200 feet deep in the
Orchard Dale section, which touches
the Marland Dale section, and so
far the showings are said to be
of an exceptional nature. The
drillers are yielding four and one-
quarter-inch casing. They plan to
drill to 5000 feet.

All of the country around Santa
Fe Springs is being tested. On the
west the Burbank Oil Company is
drilling its well at 4820 feet. The
company is also testing a well on the
Rosedale lease, which is a well-
known oil field. The well is stand-
ing cemented for the fourth time.
The other two wells started by
the Scientific Oil Company are the
Gage and the K-B. Properties are
down 2000 feet and are encoun-
tering the same formations as were
found in the Rosedale well.

The Petroleum Midway Oil Com-
pany is drilling a well on the
O'Neil lease, which is a well-
known oil field. The well is stand-
ing cemented for the fourth time.
The other two wells started by
the Scientific Oil Company are the
Gage and the K-B. Properties are
down 2000 feet and are encoun-
tering the same formations as were
found in the Rosedale well.

COMPLETING WELL

The Associated Oil Company is
completing its No. 1 well on the
Southern Pacific lease, having
found a little water and oil at
4500 feet. The well is being
completed in the next few days.
The Petroleum Midway Oil Com-
pany is completing its No. 1 well
at 4440 feet and is placing a
string. The Petroleum Midway
Oil Company is also completing its
No. 2 well on the Flox lease, while
shifting many strings of tools to the
Rosedale section at which it is
drilling.

The wells are to be abandoned
by the Standard Oil Company, it
is asserted. They are the Donnelly
No. 1, which is now making 125
barrels a day, and the No. 2, which
is now making 125 barrels a day.
The Standard Oil Company is
building the rig for A-24 on the
A lease, in the barley field near
the ocean, about 500 feet north
of A-11. The Standard is also
building a rig known as B-24 on
the B lease about 400 feet south
of Reservoir Hill and near the
high school.

With the two rigs mentioned
there are now 442 active rigs in
the field, 79 of which are drill-
ing, and 315 are on production.

INSPIRATION IS
SHAFT HOIST
READY SOON

Giant Lifter Said to be
Largest and Fastest in
History of Mining

MIAMI (AP).—March 23.—
Declaration is made that the new
Porphyry shaft hoist of the In-
spiration shaft hoist, with its head
frame 176 feet high, not only is
the tallest in the world, but is the
largest, while its builders assert
it will be the fastest ever known
in the way of delivery of ore. It
is expected to be in operation in
about a month. Inspiration is to
secure a large accession to its
electrical power as soon as the
Mormon Flat dam on Salt River
is in operation, this summer. A
steady supply of current then will
be available from the Roosevelt
generation works, instead of the
present intermittent supply. Cur-
rent also is furnished the Magna
at Superior by a line that is being
extended to the North Butte prop-
erty in the same camp, across the
mountain from Miami.

J. Elsie Owen is in Los An-
geles to purchase two churn drill-
ing outfits, with which to explore
the 1760-acre estate of the Pinto
Valley Mining and Milling Com-
pany. Four drills are to be op-
erated, day and night.

Mexican labor has become so
general in the mines of this lev-
elty that the Miami Copper
Company is reported to have pro-
vided regular instruction in Span-
ish for its foremen. The Span-
ish element formerly was pre-
dominant in the local labor sup-
ply.

A trial run of the Occidental
mill near Payson has produced
its first pure gold bullion.
brought in by Charles M. Clark.
The ore yielded to average about
an ounce of gold to the ton.

Conceded a year-old (after caller
has gone) Mother, am I really
the image of you, or was that
lady just trying to hurt my feel-
ings?—(Boston Transcript)

TORRANCE AREA ADDS INDICATIONS INCREASE AT TO OUTPUT EL SEGUNDO

Ten Wells Brought in During Week With Flow of 9340 Barrels

Interest Gains in Oil Prospects on Reports From Drillers

EL SEGUNDO, March 23.—Ten new wells, nine of which ranged between 700 and 1000 barrels a day, were brought in here during the past week. The tenth well started off at 300 barrels. The total output of the ten wells was 9340 barrels. With this new production the output of the field, according to a survey completed by the production department of the Standard Oil Company on Friday, jumped to 30,000 barrels. The pipe-line run of the marketers' agents in the week gave the field 23,000 barrels daily.

Five of the new wells are in the southwest section of the field, which has been in production during the past three weeks, three of them in the far southeast section, and two in the East Lomita section. The best well of the group was the Shell's March No. 1-A, which has been in production since the first of the month. It is producing 1000 barrels a day.

Checkings of formation with the Transport's Bush well a half mile distant indicates that the oil sand is within 100 feet of this point, and drilling will proceed into the oil with cores being taken regularly.

California No. 3 along the north line of the southeast quarter of Section 4, 11-23 went into production Saturday, and after a few days without flowing, was placed on the pump in an effort to bring it in as a flowing well. No. 3 is located on a small tract adjoining the main field, and is producing 100 barrels a day.

Activity General. The Associated Oil Company's activity is general throughout the west side fields. In addition to its work in western Lomita, it has four wells drilling in Elk Hills. No. 2 is being cemented at 3240 feet, and No. 3 is being cemented at 3250 feet, and just entering the oil sand; No. 21 is being cemented at 3000 feet, and No. 22 is being cemented at 3050 feet.

In Buena Vista Hills on Section 21, 11-23, 41 and 42 are drilling. No. 41 is being cemented at 3000 feet, and No. 42 is being cemented at 3050 feet, and just entering the oil sand; No. 21 is being cemented at 3000 feet, and No. 22 is being cemented at 3050 feet.

Other companies are said to have been approached by Bush-Voorhis to learn whether they are agreeable to giving a proportionate amount toward the deepening of the well. The latter has returned if deeper production is encountered. It is understood that the Bush-Voorhis company is not to be called upon to prove up the entire section for the 3000 feet, with the exception of other companies, with the exception of other companies, with the exception of other companies.

English Translation of Mexican Information Issued. A handbook on mining in Mexico containing much material hitherto unavailable in English has been published in its first annual edition by L. R. Goldbaum of the Mexican General Advisory Company, San Francisco. It has been for many years has been associated with the mining industry in Baja California, and is a mining engineer.

The book contains complete translations into English of the Mexican mining laws, specifications and notes on the persons of English speaking engineers in mining activity in Mexico. It also has a glossary of Mexican mining terms, many of which are not found in bilingual dictionaries.

Petroleum exports from Los Angeles Harbor during the week which ended yesterday showed a gain of about 200,000 barrels over the combined shipments of the previous week, the total being 2,135,000 barrels, compared to 1,935,000 barrels.

Five of the tankers were consigned to foreign ports, nine went to the Atlantic seaboard and the others were destined to Pacific Coast ports. The shipments were as follows:

MARCH 19. El Estero, to New York, 15,000 barrels crude for Shell Oil Co. El Estero, to New York, 15,000 barrels crude for Shell Oil Co. El Estero, to New York, 15,000 barrels crude for Shell Oil Co.

BONDS BOOSTED BY EXCESS CASH

Wall Street Floods Market With Currency

Call Money Rate Falls to Postwar Low

Southern California Edison Sixes Marketed

NEW YORK, March 23.—Substantial recovery in bond prices last week was attributed to diversion of Wall Street's flood of surplus money into the investment market. With the official rate on call money falling to 2 1/2 per cent, the lowest since the war, and outside loans contracting on a 2 per cent basis, institutions hastened to place their excess funds in United States government issues, short-term maturities and other liquid securities of a high-grade nature. The result was a quiet but steady appreciation of values.

With the market quickly swept clean of short-dates investment issues, the principal outlet for the banks' plethora of cash. With the exception of the first 2 1/2 per cent, all the new issues attained new peak prices for the year, while the Treasury 4 1/4 per cent was bid up to the highest level ever reached.

SECURITIES SNAPPED. Brick industry for high-grade railroad and corporation mortgages, which banks normally are reluctant to hold in large amounts, also measured their need for finding employment for money at a higher return than offered on the stock exchange. Issues legal for savings banks, insurance company and trust fund investments attracted an especially good demand.

The fourth of new financing which increased only \$2,000,000 to about \$2,000,000 for the week, brought the total of new issues for the week to \$10,000,000. The Standard Oil Company, which has reported a record of oil between 2350 and 4000 barrels a day, is the Fortuna well, which is southeast of El Segundo, a week ago reported a record of 4500 barrels a day.

Mr. Edens declared yesterday that the hole is only slightly more than 400 feet deep. He said that there had been no oil and gas showings in the well during the last fifty feet, that cores taken while drilling had shown no oil and gas, and that the hole is only slightly more than 400 feet deep.

He declared that he is greatly encouraged by the showings, which, in virtually every case, have been oil and gas below a hard streak of shale. These shale streaks, he said, had in the last fifty feet been fairly close together.

The Standard's wildcat well north of the Pan-American's Western well, which has been in production since the first of the month, is producing 1000 barrels a day.

Other companies are said to have been approached by Bush-Voorhis to learn whether they are agreeable to giving a proportionate amount toward the deepening of the well. The latter has returned if deeper production is encountered. It is understood that the Bush-Voorhis company is not to be called upon to prove up the entire section for the 3000 feet, with the exception of other companies, with the exception of other companies.

TAFT ANNEX WELL NEARS COMPLETION

Two New Holes Started in Midway Field and Like Number in Elk Hills

EXCLUSIVE DISPATCH. TAFT, March 23.—The Lawrence Santa Fe Oil Syndicate is making preparations to complete its No. 7 well which is located on the northeast corner of Section 23, 32-23 on the old Taft City Annex property west of here. The crews have been working with the property for some time and it is expected the well will be brought in within a week or two. This hole was drilled to take the place of a hole at Santa Fe Springs which failed to become a producer. According to reports, the two new wells were started in the Midway field last week, one by the Bradfield and Craile Oil Company, a new concern, on Section 34, 30-22, and another by Ralph Lavin on Section 23, 32-23. This is Mr. Lavin's second well.

Two new wells were started in the Elk Hills, one by the Union Oil Company, No. 6, on Section 24, 30-24, and the other by the Bradfield Oil Company on Section 34, 30-24. The Bradfield well is known as the No. 11.

The Charles-Carfield Midway Company (Santa Fe) continues to be one of the most active companies in the north Midway fields. The company's production has been steadily increasing, and it is now producing 1000 barrels a day.

LOSES ARM IN BOOTLEG CHASE

Harbor Officer Injured as
Auto Overturns

Pursuit Car Was Making
Fifty Miles an Hour
East Seventeenth Street Man
Run Down; May Die

Dick Munger, 26 years of age, a policeman attached to the Los Angeles Harbor division, lost his left arm yesterday as the result of an automobile accident while he was pursuing bootleggers near Point Fermin. The arm was amputated at White Memorial Hospital by Dr. Goodrich, police surgeon.

Munger was off duty, but said he obtained information about 2 a.m. that a carload of liquor was being taken from the harbor to Palos Verdes. Munger borrow a car and gave chase. He was traveling about fifty miles an hour at Pacific avenue and Fortieth street when the car turned over. He was hurled clear of the wreckage, and his arm was pinned under him in the fall.

The bootleggers speeded on. Munger said.

The injured officer lives at 1438 Grand avenue, Los Angeles Harbor. He is married and has a year-old child. He was given emergency treatment at the Harbor Police Hospital by Dr. Allen and transferred to White Memorial Hospital.

Possibly fatal injuries were suffered by James E. Smith, 43, 1441 East Seventeenth street, when he was run over by an automobile driven by H. C. Pleasant of 237 San Antonio street, at Macy and Avila streets yesterday.

Smith, according to Detective Lieutenant Carr, who was assigned to investigate the accident, alighted from a street car and was struck down before he could reach the curb. Pleasant stopped his car and helped take Smith to the Receiving Hospital where Police Surgeon Dunn said he had a possible basal skull fracture and numerous serious cuts and bruises.

Mystery Sensed in Boat Ashore Near Huntington

Whether the fishing boat Louise of Los Angeles Harbor floated from its moorings at some dock or was caught in a storm at sea and its crew lost, was under investigation by the San Pedro police last night following the report that the boat had blown ashore at Los Patos, near Huntington Beach.

The Louise, an eighteen-foot boat, had not been reported missing and the boat was unable to account for her appearance at Los Patos.

The boat carried bunks for four men and could accommodate a crew of that number for fishing trips.

STATISTICS REVEAL MANY THINGS; ONE IS THAT CROOKS ARE BUSIEST ON TUESDAYS

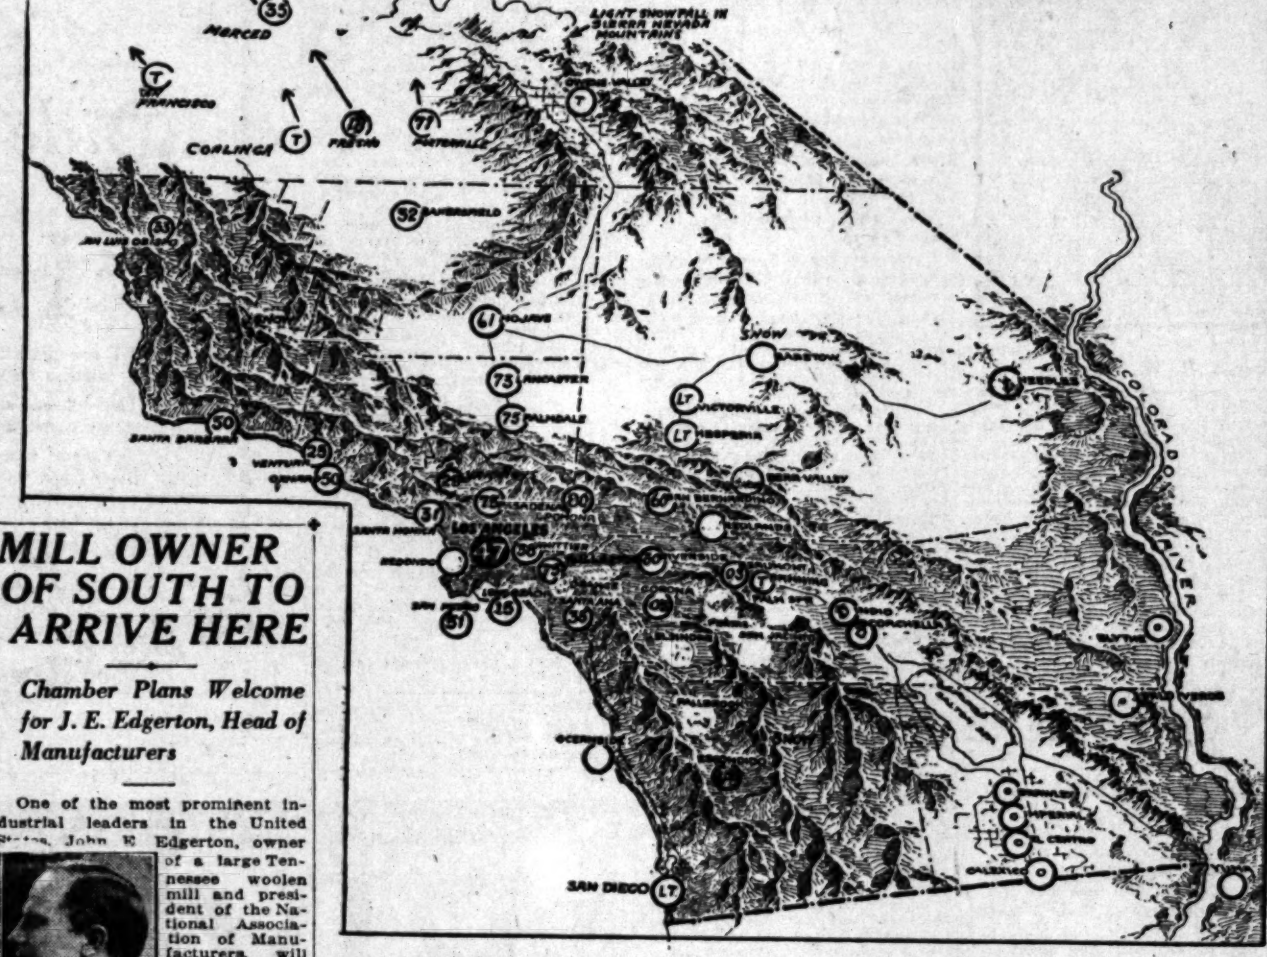

Statistics constantly operate in a rather definite groove, and the method, figures will ultimately play a big part in the detection and prevention, the January report of the Bureau of Police Headquarters, the most complete yet compiled by the Police Chief Vollmer, indicates.

Some facts revealed by the statistics are: The percentage of crime is higher on Tuesdays than on any other day of the week. The percentage of crime is higher on Tuesdays than on any other day of the week. The percentage of crime is higher on Tuesdays than on any other day of the week.

MILL OWNER OF SOUTH TO ARRIVE HERE

Chamber Plans Welcome
for J. E. Edgerton, Head of
Manufacturers

One of the most prominent industrial leaders in the United States, John E. Edgerton, owner of a large Tennessee woolen mill and president of the National Association of Manufacturers, will be entertained in Los Angeles this week by the Chamber of Commerce and the local manufacturing men.

SHAMROCK DENIED ENTRY

Priest Brings Erin's Plant Across Seas; He and St. Patrick
Never Figured on United States Customs; Whistles
"Wearing of Green" as Sprigs Seized

Rev. R. G. McGrath of County Wicklow left Ireland a month since with six dear pots of shamrock, which he himself tenderly had gathered with adhering chunks of the old sod. It was Father McGrath's idea to bring them to some friends in America and since he would arrive about St. Patrick's Day the idea was very pat.

LOCAL MEN IN CONGRESS WILL SPEAK

Fredericks and Lineberger to be Guests of Honor at Coolidge Luncheon

Congressmen John D. Fredericks and Walter P. Lineberger will be the guests of honor and principal speakers at a luncheon of Coolidge Republicans to be held tomorrow at Paulina, 741 South Broadway. This is the first of a series of meetings to be conducted locally by the Coolidge forces during the primary campaign at which nationally known speakers will be included on the program.

SLAIN WOMAN IDENTIFIED

Husband Claims Japanese Found Dead in Beverly Hills Canyon With Bullet Wound in Breast

Identification yesterday of the body of a woman found Saturday afternoon by a boy hiker in a part of lonely Higgins Canyon near Beverly Hills as that of Mrs. Asano Watanabe, 26 years of age, and the discovery of what apparently is a bullet wound in her body set the Sheriff's office and the Beverly Hills police working on clues by which they hope to solve the mystery of her death. The body was partly clad, with a burlap sack over the head, and covered over with brush.

ARREST IS DENIED BY FILM STAR

Claire Windsor Asserts
Woman Jailed as Drunk
Was an Impostor

A woman who gave her name as Mrs. Clara Windsor, 33 years of age, and said she is an actress, was arrested at 3:15 a.m. yesterday at the City Jail on a charge of intoxication. The arrest was made by Officers Nipping and Coburn of the Wilshire Division when they declared she was wandering aimlessly around in the 1700 block on West Twentieth street.

Southern California experienced the best rain of the season yesterday. Rain began falling late Saturday night and continued over most of the Southland during nearly all of the Sabbath day. More than half an inch of rain fell during the day and it came down steadily. While the precipitation was not as much as the rain of the early part of the month, it extended over a longer period of time and all soaked into the ground.

city. Watanabe said there were no firearms in the house. His wife left, he said, with only two

The only possible reason he could advance for her leaving, at the time, was homesickness, he said. The couple came to the United States from Japan in August 1932.

Watanabe was questioned by the Beverly Hills police and was later taken to the Sheriff's office for a

Following Watanabe's story, the Beverly Hills police declared they were satisfied with his explanation. The woman's death was made yesterday at the undertaking room. The supposed bullet wound was in the left breast. When discovered the body was clothed in a white petticoat, a coat, a sweater and an underwear. The petticoat and the underwear were stained with blood and other belongings were found on the floor.

several yards from the body on the slope of an embankment.

Wanless told deputy his wife was in the habit of carrying an extra pair of stockings. He identified all the clothing she wore and previously had described the clothing to the coroner's jury.

He also told them of the gold crown on one of her teeth. He was released after being questioned.

A medical examination will be made of the body today when it is planned to probe the wound in the woman's body for the supposed bullet. Deputies hope to un-derstand from the examination pointing to a more definite line of investigation.

Finding of a tooth of a prehistoric ape in Nebraska caused scientists to believe that this animal once inhabited this country.

VERSIDE

The City Beautiful

There are Rare Opportunities
Establishment of
Businesses—
Prices are Reasonable

THERE ARE MANY GOOD REASONS why the merchant or manufacturer seeking a favorable location should choose Riverside:

Building sites and trackage may be acquired at less expense than in most cities, for land values are not inflated here. Four railroad systems, three of which are transcontinental, facilitate distribution of goods and handling of raw materials. There is an abundance of high class, dependable help; labor troubles, such as afflict many cities, are unknown here. Living conditions, both for employer and employee, are ideal. Light, water and power are available at highly attractive rates. Riverside enjoys peculiar strategic advantages, being the geographical center of Southern California's great inland population.

MR. INVESTOR: A number of important industrial enterprises are prospering and flourishing here. The conditions which help them will help you.

This office stands ready at all times to offer suggestions and assistance.

PORT AREA ORATORS VIE

San Pedro, Wilmington and Long Beach Prepare

Contests Stir Intense Rivalry

City Confident of Its Success in Event

Another case of rivalry among the schools entered in the National Oratorical Contest was announced yesterday when it was known that each of the harbor cities, Long Beach, San Pedro and Wilmington, is going to enter the others.

Wilmington school is the favorite of the three in number, and the factors say it is fully up to the others in oratory. Its students are working on the theory that only a Wilmington student can represent the harbor at the grand finals, and they are putting forth every effort to obtain a place for one of its students in that contest.

LONG BEACH READY

Long Beach contestants, who are presenting a group of speakers, which they believe will be defeated. Among the speakers are several experienced debaters who have won forensic contests in the past, including Jack McQuinn, a former champion of the state, and several other students who are well known in the harbor area.

The school organ, who is expected to put up a strong fight and hopes to win at least first prize, which is \$15 and represents a sum of money from several Long Beach citizens interested in the work being done.

The coming contest is expected to stimulate interest in the Constitution at the Long Beach school, according to J. G. Smith, Jr., editor of the school organ, who says all the students in the harbor area are making a detailed study of the Constitution, and that document, the number of students involved totaling about 100.

OF VICTORY

The San Pedro High school institution already has several forensic honors, and its pupils are resolved to win the school's high honor in this branch at the contest. Their efforts are being aided with intense interest by the citizens of the town, who are always proud of the school's oratorical prowess.

Other interests backing the San Pedro team are the San Pedro Chamber of Commerce, the San Pedro Rotary club, and the San Pedro Yacht club, who are not only giving the school publicity but also a number of prizes to the winner.

CONFESSION HELPS DRAW KITTLE NET

Sheriff's Office Declares
McGregor Statement Aids
State's Case

With the complete statement of C. G. McGregor, indicted on the charge of disposing of express travel checks stolen from the First National Bank of Arcadia in a robbery in April, 1922, Deputy Sheriff Hubert Kittle, ex-policeman, now out on bail on a similar charge, Kittle has not yet made a statement to the officers. He was identified as having been with McGregor, who admits signing and passing about \$1020 of the checks in San Diego, Tijuana and Los Angeles. His attorney, Richard Kittle, while admitting that Kittle said he was with McGregor when the checks were cashed, maintained that Kittle knew nothing of the history of the orders. In his confession, however, McGregor placed all the blame on Kittle, declaring that the latter forced him to pass the checks. McGregor was lodged in the County Jail last night by Deputy Sheriff Hotz and Dewar, who arrested him in Sacramento.

TO RECEIVE ART FACILITY
A reception in honor of the art faculty of the University of California, Southern Branch, will be given at the Southwest Museum today at 8:15 p.m. "Game Trails of the West Woods," will be presented by the courtesy of Donald R. Dickey and a musical program will be given through the efforts of Mr. and Mrs. Harry Girard.

Value of Art to
Business to be
Luncheon Topic

Many prominent musicians, painters, sculptors and other artists are expected to attend the luncheon of the Commercial Board at the Biltmore Hotel Wednesday when the topic will be "What Art Means to the Commercial Life of Los Angeles."

The luncheon program, which will be given on the main floor of the hotel, will be in charge of Marius de Brabant, president of the Biltmore Salon. Among guests and speakers will be S. Fred Rogue, editorial and feature writer of The Los Angeles Times, Robert Vonoh, nationally known artist; Jack Wilkinson Smith, especially well known in Southern California art circles, and E. Roscoe Shrader, president of the California Art Club.

Distributes Good Cheer

SUSPECT IN BANK CASES IS SOUGHT

Early Arrest of Third in
Los Nietos-Rivera
Robberies Expected

Search for another man, believed to be implicated in the robbery of the State Bank of Los Nietos and the State Bank of Rivera, was continued yesterday by police detectives under Assistant Captain of Detectives Cato, who Saturday placed in jail E. H. Kay and S. E. Milligan and two women.

Milligan is charged with receiving stolen property and Kay with robbery, according to officers yesterday. No charge has as yet been made against the women, Mamie Russell and Vera Deguire. Whether they will be charged with a crime or released is to be determined today. Kay, according to officers, has confessed, and assisted the officers in recovering lost valued at \$2049.

The third man, who is known to the police, and who carries the nickname of "Dusty," is believed to have fled from the city toward the border. Officers state that they have information as to his whereabouts, and his arrest is expected hourly.

AKELEY'S CHILD LOSES SUIT

Minneapolis Court Rejects \$8,000,000 Division Asked
by Daughter of Lumber Magnate

A further legal entry in the decade-old battle involving the settlement of the estate of the late H. C. Akeley, Minneapolis and Long Beach lumber millionaire, was made Saturday with a Circuit Court decision at Minneapolis under which Mrs. R. C. Patterson, 184 South Oxford street, a daughter, was declared loser in an \$8,000,000 action against T. B. Walker, Minneapolis, nat, for a division of the Akeley & Walker business at Minneapolis. Claims for more than \$200,000 against Mrs. Patterson were made in a counter action brought by Walker, according to Minneapolis dispatches.

Mrs. Patterson, formerly Mrs. Florence Akeley Quirk of Minneapolis, yesterday refused to comment on the decision or state whether appeal will be taken, pending official notification from her Minneapolis attorneys.

The present action was started seven years ago and is based on an assertion of Mrs. Patterson that an equitable division of the business assets of the Akeley & Walker Co. never has been made.

STAND GUARD ON PLAZA PROJECT

Permit Fight Not to Imperil
Terminal Plans

Council to Consider Roads'
Proposal Today

Long-Term Franchise Scheme
Knocked in Head

Determined that nothing shall be done that will imperil the union station project for the Plaza, the Council today will consider the application of the Southern Pacific and Union Pacific railroads for temporary and revocable permits for the joint use of the Arcade station and for the track-routings changes which will allow the Expee to take freight trains from a part of Alameda street. "Chairman Allan of the Council's Public Utilities Committee has prepared a report recommending that these permits be granted."

After the recent fire at the Union Pacific's old passenger depot, the railroads renewed their applications for long-term franchises. The Council, whose opposition was headed by Councilman Wheeler, referred the matter to the Railroads Commission. The Public Utilities Committee of the Council conferred with the commission and the railroads were criticized by Commissioner Brundage for their persistent efforts to block the building of an adequate union passenger station for Los Angeles and the systematic elimination of grade crossings. Commissioner Brundage declared that the railroads were solely to blame for the present inadequate railroad passenger depot facilities in Los Angeles.

INJUNCTION THREATENED
The applications for twenty-one-year franchises were eliminated at the conference and the railroads were advised that if the Union Pacific attempts to abandon its present passenger depot without the approval of the Railroad Commission, the commission will apply for an injunction.

Commissioner Brundage said that he, personally, would not vote in favor of granting the railroads any concessions unless the higher officers of the railroads agree that, in the event of a decision by the Supreme Court upholding the commission's Plaza union depot order, the railroads will agree to cease further opposition to providing adequate passenger depot facilities for Los Angeles and grade crossing elimination. This was protested by the representatives of the railroads.

Attorney W. A. Alderson, representing the Business Men's Cooperative Association and the North Main Street Improvement Association; Harry Hawgood, consulting engineer; George M. Babcock of the Business Men's Cooperative Association; F. W. Blanchard and others who have fought for years for an adequate union passenger depot for Los Angeles and for the elimination of deadly grade crossings, are expected to present at today's session of the Council to urge that steps be taken that will in any way jeopardize the Plaza project.

WIFE BEAT WOMAN IN HIS STORE

Divorce Granted Grocer
Whose Best Customer Was
Pummeled by Spouse

It's not so good for business when a grocer's wife pulls his women customers' hair, William F. McIntire, former Wichita (Kan.) merchant, explained to Judge Summerfield in narrating a tale of domestic strife which so affected the court that today he is a free man.

McIntire said he had a particularly valued customer named Mrs. Polk. So highly did he appreciate Mrs. Polk's custom that when she came in for her groceries, he waited upon her with his own hands. Once his wife came in upon such an occasion and proceeded to pummel and yank the star customer around so violently that McIntire and his brother had to rescue her, he said.

So—perhaps to find a little quiet—McIntire joined the Y.M.C.A. and went over to Fresno. When he came back he sold out his store, divided the proceeds with his wife and came to California, where he sued for divorce.

NEW PARKING ZONES

Zones for the parking of city, county and Federal automobiles are to be created by the City Council adjacent to the City Hall, Courthouse and Federal Building, which has issued instructions to the City Attorney to prepare such an ordinance.

More than three-fourths of the world's mother-of-pearl shell comes from the coast of Western Australia, it is believed.

PAINTS & WALL PAPERS

The Woman and Her Job

(Questions concerning the vocational problems of women will be answered in this column if addressed to Mrs. Watson at The Times. Requests for personal replies must be accompanied by a stamped envelope.)

"MISS IMPORTANCE TELLS HER TROUBLES"

Here is a letter that opens up an interesting problem for discussion. I have had other letters of the same character which I have answered privately.

"I have always been employed in small offices where I was the only girl. I like to have everything my own way. Where I am now there are about fifteen girls, and while they don't bother me in my work, they are nasty in the locker room. There are not enough lockers to go around, and while I don't use mine often, I want to feel that it is mine. The girls say that I have no right to take up room with my things when I have a locker; they say I should give it up unless I intend to use it all the time. I insist that it is mine, and I don't have to use it unless I want to. Am I not right?"

The problem of the girl who cannot work harmoniously with her fellows is a common one. Developing the "group" spirit is the aim of schools and colleges; in fact they consider it more important than high marks in studies. Girls are individual in their inclinations. This spirit is fostered from babyhood, for the fond parents are always admonishing the boys to be kind to "little sister." If there are no brothers, then it is the teachers who try to teach civility to the boys in the treatment of their girl classmates. It's a fine thing for the boys to develop a spirit of deference, but it's all wrong for the girls. They become filled with a belief in their

else with the understanding that you may keep your treasures safe when you wish.

Small wonder the girls are "nasty" in the locker room. You'd be more disagreeable than they are if the conditions were reversed.

I lived in a dormitory one time where my neighbors would gossip during the study hour, and set their alarm clocks to ring at 3, 4 or 5 in the morning. They had an equal right to sleep free from the disturbance of an early morning alarm was of secondary importance. They didn't care what happened to anybody else, so long as they did as they pleased.

"We would have a fine old world if every one took the stand of this girl with her locker."

Work with the "gang," and play the game according to the rules. Some one of those girls will get into a position of power some day. She'll make it interesting for you when she does.

It's the trifles that make up the world's woes, not the fundamental.

COURT OF APPEAL

FACES BUSY TERM

EIGHT CRIMINAL AND TEN CIVIL CASES SCHEDULED; OPENS TODAY

Eight criminal and ten civil cases have been placed on the calendar of the Second District Court of Appeal, Division One, for hearing today. The court will convene at 10 o'clock in its courtroom in the Pacific Finance Building.

The criminal calendar includes the cases against D. E. Collins, F. W. Vanderborg, Frank D. McGinn, Thomas F. Gere, Joe Gonsales, Joseph Forster, D. Gordon Revley and J. B. Mitchell, and Harry De Windt.

The ten civil cases are those of Fay Fruit Company vs. J. D. Ryan, A. T. Wiley vs. F. W. Hamner, F. O. Frazier vs. Southern Counties, Joseph Forster vs. The People vs. Pacific Electric Railway Company, H. B. Hunt vs. Alamitos, Cerrito Ranch Company vs. Heights Water Company (two cases), Frederick M. Roskoff vs. Elmer H. Thompson, and L. F. Dolley vs. Edward D. Ragon.

Clearing the Atmosphere

Swapping Horses

THAT is an old saying—about swapping horses.

Another proposition, equally imprudent, is now being urged upon the people of Los Angeles. A group of persons in local political life is actively promoting a scheme to take, by force, the electric system of Los Angeles Gas and Electric Corporation out of the hands of the people who built it up and transfer it bodily to the control of the City Bureau of Power and Light, thus creating an unregulated monopoly in electricity for Los Angeles.

How do they propose to do this?

First, by having the voters ratify the two ordinances which are to be referred to the electorate authorizing the Bureau of Power and Light to spend \$50,000 to pay for an appraisal of the electric properties of Los Angeles Gas and Electric Corporation.

Second, by having the voters ratify a bond issue of many millions for "extensions," which could later be diverted to acquire the Corporation's electric system in case condemnation proceedings should be successful.

WOULD the municipalization of the Corporation's plant increase the power facilities of the community?

It would not! It would simply pledge the homes and property in Los Angeles as a guarantee for millions so that an electric plant already working effectively might be operated by a different group of people.

WHY mortgage your homes merely to "swap horses"?

THE LAST WORD

BY ALMA WHITMAN

VULGAR PARVENU

Of course if it is ever forced upon me I do hope I shall rise to it gracefully. Things are certainly giving symptomatic hints of fringing that way for me—enough to warrant my toying with the idea. Most of us have toyed with the idea at some time or another. Wealth and place, if possible with grace. If not by any means wealth and place.

I myself confess to it frankly. Of course I am not mercenary, you understand. Certainly not. And one would not dream of being a purse-proud plutocrat like some of our vulgar parvenus. I feel sure—just as you do—that if wealth came to me I should grace it like a perfect lady. And of course I would do lots of good with my money! Generosity, beneficence will be my strong point. The last time I have indulged myself with a few highly desirable and well-earned luxuries. One's home, of course, would have to be a masterpiece with one's more affluent position. Oh, by all means a really rather fond of the old house and the shabby old furniture and what the last burglary left us of the silver. It seems a little horrid to be thus contemplating banishing them from my life at the first sign of possible affluence. After all, they have stood by us handily through our vicissitudes!

And the car. Oh, yes, we must of course, replace the car with a more stylish outfit. And while we have got along nicely, nicely to date with one rather "vulgar" car, I would think be incumbent upon us to have at least a couple of good cars. Hubby and I really need one apiece. Big Brother even considers that a little sport model for his own use would not come amiss. And I really can't see how I could get along without a model that has been with me half my lifetime. Really our poor old ineffectual rug is quite deplorably shabby. The tax appraiser merely glanced at those rugs the last time, in order to assess up at the most modest figure. Good rich beautiful rugs enhance the charm of a home so wonderfully. I have my eye on a couple of Chinese beauties and a little Persian thing. (Still that old blue Axminster seemed very lovely to me once. And I remember when that dear old rag in the dining-room joined our family, and how calamitous seemed when some one upset the soup over it and corner right in the light.)

Clothes! Oh, mercy, we all want clothes! Draping clothes, day clothes, sports clothes, underwear. I rather think I shall take to silk myself for all the time. Hubby, of course, one silk outfit for my evening rig-out sufficed. And I rather loved it as a something sort of special. It made it seem so much more like a real party. I wonder if I shall feel like a real party all the time if and when One could so soon get used to it and miss the glamor.

Of course, it wouldn't do at all to wear that old blue evening cloak of mine any longer, the one with the imitation white ermine cape. There is one that Gloria Benson wore that would really look rather stunning on me—costly simplicity and all that. But that dear old cloak has decked me fondly for

years. Really our poor old ineffectual rug is quite deplorably shabby. The tax appraiser merely glanced at those rugs the last time, in order to assess up at the most modest figure. I wonder if I shall feel like a real party all the time if and when One could so soon get used to it and miss the glamor.

Of course, it wouldn't do at all to wear that old blue evening cloak of mine any longer, the one with the imitation white ermine cape. There is one that Gloria Benson wore that would really look rather stunning on me—costly simplicity and all that. But that dear old cloak has decked me fondly for

years. Really our poor old ineffectual rug is quite deplorably shabby. The tax appraiser merely glanced at those rugs the last time, in order to assess up at the most modest figure. Good rich beautiful rugs enhance the charm of a home so wonderfully. I have my eye on a couple of Chinese beauties and a little Persian thing. (Still that old blue Axminster seemed very lovely to me once. And I remember when that dear old rag in the dining-room joined our family, and how calamitous seemed when some one upset the soup over it and corner right in the light.)

Clothes! Oh, mercy, we all want clothes! Draping clothes, day clothes, sports clothes, underwear. I rather think I shall take to silk myself for all the time. Hubby, of course, one silk outfit for my evening rig-out sufficed. And I rather loved it as a something sort of special. It made it seem so much more like a real party. I wonder if I shall feel like a real party all the time if and when One could so soon get used to it and miss the glamor.

Consul Bucklin Back After Trip to Mexico Port

It isn't half as "long a way to Tippecanoe" as from Acapulco, Mexico to Los Angeles, according to American Consul George A. Bucklin, who arrived from that late rebel port Saturday.

Consul Bucklin had the malaria there but communication with his home here was poor. He tried to get out but ships wouldn't brave the rebel's wrath. Uncle Sam sent a destroyer after him, but when it arrived he had gone, sailing aboard the Dutch steamer Manzanera which passed right by this port but didn't stop till it reached Vancouver.

Yesterday he came back on the steamer Bert E. Haney still ill. He was met at the harbor by Mrs. Bucklin and H. W. Cutler, business manager for the World Travelers and taken to his home in Los Angeles where he was placed under the care of his family doctor.

More than 22 per cent of the United States government forecasts issued every day are accurate predictions of the conditions of the weather thirty-six hours later.

"After Twenty Years" takes care of the skin

UP to twenty years takes good care of your skin. Note the peach-bloss color of the cheeks of youth; the smoothness, softness and suppleness; the velvet texture. But after that the skin begins to lose. Age shows quickest in the skin—all authorities will tell you that.

Thousands have found the way to combat it in a cream called Espey's.

For forty-seven years this effective lotion has produced the best results for all types of skin.

The skin loses oils in washing. Soaps leave irritation. Wind, sun and water dry and crack and burn the skin. Dust, dirt and germs infect the pores. Espey's replaces the lost lubrication, soothes the irritation, removes the chap, helps to clean the pores, takes out the tan and burns and bleaches the cracks.

You note a feeling of improvement almost over-night. And

"Robinson's For Yard Goods"

Colorful Frocks of Linen for Morning Wear—\$6.50

VERY exceptional is the price which will secure these attractive morning and porch frocks at Robinson's Monday.

Of gay colored linens, in straight lines, they have short sleeves, white linen collars and cuffs and small pockets with flaps of white linen.

In rose, Copenhagen, green, peach, coral, beige, orchid and brown.

And in sizes from 36 to 44. Priced very low at just \$6.50.

FOURTH FLOOR

Coat Fashions for Formal Afternoon

COATS, Capes and Wraps are all worn equally correctly and smartly for formal afternoon occasions.

Platings, embroideries, silk linings and fur trimmings employed in different and unusual ways distinguish them as decidedly new.

In plain colors or in harmonizing shades of beige, brown or grey-stones, of Canton crepe, moire, juina, tulle and charmeuse with such furs as Ermine, Fox, Squirrel, or Kristovichy (Baby Russian Kit Fox.) They are priced to begin at \$97.50.

THIRD FLOOR

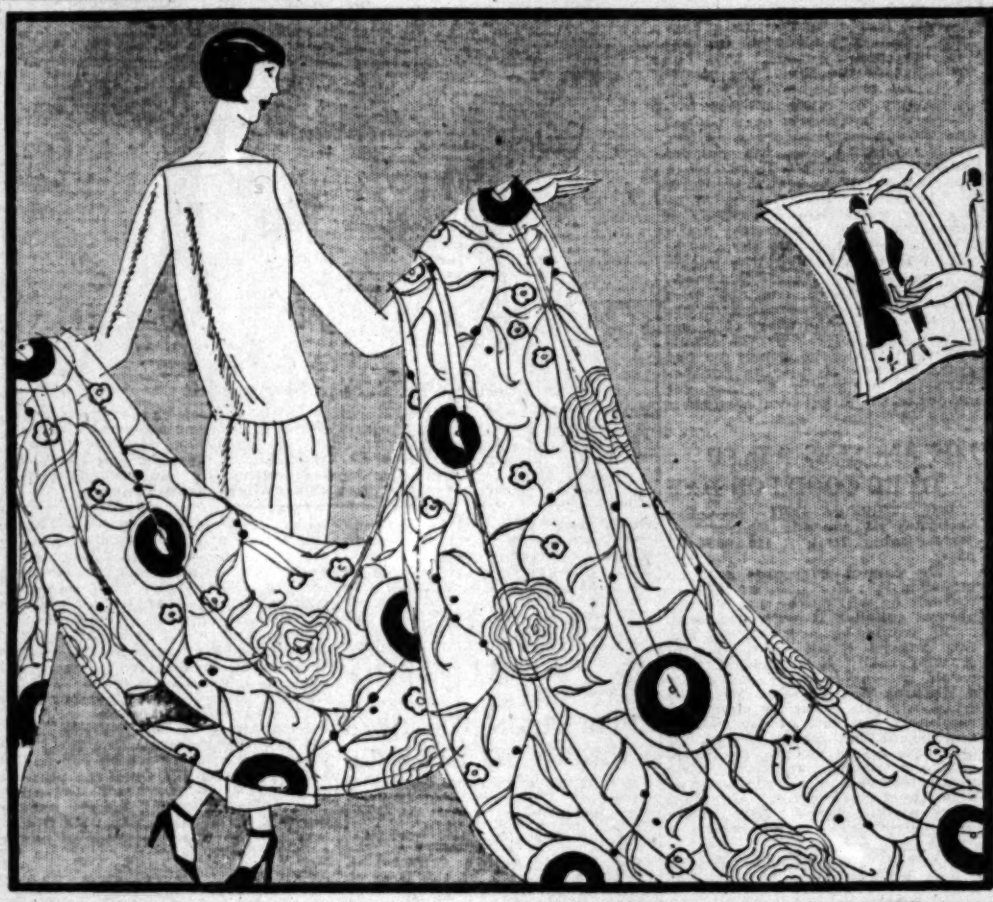

Silver Plated Flower Center-pieces, \$3.75

VERY new and artistic for flowers, are these heavily silver plated center-pieces. They are low and round and their tops into which flowers may be arranged are very finely carved.

Bearing a price distinctly lower than one would expect, a center-piece of this type suggests itself as a lovely yet inexpensive birthday gift or bridge prize.

Flower Center-pieces are \$3.75.

FIRST FLOOR

SILKS printed, striped, plaided and plain—Silks for lingerie, silks for afternoon and silks for evening. Beautiful silks in the spring shades and for practically every purpose—All exemplify the widespread confidence in the experience-earned slogan "Robinson's for Yard Goods."

Just now it denotes thousands and thousands of yards of the new plaided and striped woollens. The new Flannels—a complete vogue in themselves. And the new Silks—again the Silks.

Four Groups of Silks At Low Prices— Monday

WITH compelling emphasis of this truth, "Robinson's for Yard Goods," more than 3000 yards of fine silks in plain shades will be offered to Monday shoppers at prices unbelievably low.

Frost Krepe, \$4.45

ONCE acquainted with Frost Krepe, one will use it for many things, from breakfast coat to evening gown.

In white, black, navy, maize, apricot, sunset, steel, java, zanzibar, sand, poudre blue, King's blue, plum, greylock and pink. 40 inches wide.

Exceptional at \$4.45 a yard.

Charmette, \$2.45

A POPULAR new sports silk is Charmette, and when one finds it so low priced as at Robinson's, one will desire at least two or three frocks of it.

In Empire blue, zinc, Lucille, lariat, tan-bark, as well as white and black and 36-inch width.

Monday at \$2.45 a yard.

Crepe Satin and Palm Krepe, \$3.95

SILKS of smooth, lustrous finish are Palm Crepe and Crepe Satin, both remarkably low priced for Monday.

They will include sand, taupe, sandal-wood, pink, coral, pigeon blue, hollyherry, daffodil, Chinese blue, Lucille, navy, brown, white and black.

40 inches wide and only \$3.95.

And Radium Silks, \$2.45

A FIRM, heavy quality, a weight especially suitable for Costume Slips, is this smooth Radium Silk.

In white, pink, flesh, moire, orchid, turquoise, zinc, fallow, bobolink, peach and black. In 40-inch width.

Its price is very low, at \$2.45.

Georgette Covered Bed Lamps, New and Only \$5

BED Lamps, covered with georgette and lined with silk, give out a lovely soft light, to make cheerful the evenings spent in bed, reading or writing letters.

Georgette, in shades of peach, blue, rose, orchid, pink and orange, enriched with gold braid and tiny silk rose-buds fashion these lamps.

And for gifts, or for one's own use they are equally desirable.

Robinson's will price them low enough to interest every Monday Shopper. At just \$5 each.

SEVENTH FLOOR

New Garden Frocks Flower Tinted

THESE delightful interpretations of the Garden Frock mode are of tuckered net with real laces; hand embroidered batiste; or of soft georgette in plain colors, printed or beaded.

Frocks, slender or bouffant, designed to give their wearers a graceful distinction.

Some of them of net and lace, are worn over pastel colored costume slips to match or to harmonize with their gorgeous wide ribbon sashes. And they are priced to begin at \$75.

THIRD FLOOR

Robinson's Heel-Hugger Suede Slippers, \$12.50

ROBINSON'S Heel Hugger Slippers are made on a combination last, which assures their fitting comfortably at the ball of the foot, and yet snugly at the heel. They can neither bulge at the sides, nor slip at the heels.

Heel Hugger Slippers, in gray or beige suede, have Cuban heels combining both grace and comfort. They are priced at \$12.50.

THIRD FLOOR

ALFORD NOT TO APPEAR IN TRIAL

Testimony Dispensed With in Huling Examination

Asserted Accomplice Heard on Fraud Charge

State Uncovers Graft in City of Ontario

(EXCLUSIVE DISPATCH) SAN BERNARDINO, March 23.—Fred E. Alford, ex-city manager of Ontario, serving a sentence of from two to twenty years in San Quentin, and declared to have been master mind in the \$20,000 Ontario fraud, will not be called as a State's witness in the trial of John E. Huling, his asserted accomplice, now being heard in the Superior Court.

Although Alford was interviewed at San Quentin three weeks ago, by a representative of the District Attorney's office, he will not be asked to testify, it was announced by Chief Deputy District Attorney M. O. Hart, directing the prosecution of Huling.

Alford and Huling split last year during the Alford case when Huling offered to testify for the State, according to the prosecutor, Alford has never openly admitted his guilt in the fraud for which he was convicted and it is understood would have been a reluctant witness if called.

The State continued today uncovering the fraud in which the city of Ontario lost thousands of dollars in fictitious purchases in which warrants were traced to Huling's account in a Los Angeles bank. A number of Ontario city employees testified relative to the number of water meters purchased during 1919, 1920 and 1921, their figures being far below those appearing on invoices submitted by Alford while city manager.

The case is progressing more rapidly than did the Alford trial, Huling's attorneys doing little cross-examination and simply basing a defense on Huling's statement that he was "an innocent victim" of Alford's swindling.

NOTED MAH JONGG APOSTLE ARRIVES

By a "Times" Staff Correspondent PASADENA, March 23.—Mrs. Joseph Park Babcock of Tularia, Cal., said to be the woman who introduced the game of mah jongg to the American people, arrived in Pasadena late yesterday and is staying at the Hotel Huntington. She came to this city principally to attend the "Babcock Mah Jongg Day" to be held tomorrow at the Hotel Vista del Arroyo by the distance League of Southern California. During her stay in this city she will be elaborately feted at the Hotel Maryland and Huntington. She also will be the honor guest at a number of private mah jongg teas at which time she will explain the rules and intricacies of the game she introduced.

SPILLWAY GATES ON DAM PROPOSED

By a "Times" Staff Correspondent PASADENA, March 23.—Spillway gates on the Devil's Gate Dam in the Arroyo Seco were requested in a resolution passed by the City Board of Directors yesterday. The resolution was sent to the County Board of Supervisors as a substitute to the proposed Brookside Park Dam. The gates would be from the county flood-control bond issue after strenuous opposition it was set forth in the resolution that 2000 acre feet of water could be stored if the gates were installed. The funds needed for the completion of this work could be included in the coming bond issue, the resolution suggested.

BURGALARIES CONFESSED

HANFORD, March 23.—Confession to the burglary of three business places in Lemoore, Herbert E. Clark, young farmer, and Bud Dollar were held under heavy bonds to answer to the Superior Court. Clark stated in his confession that he and Dollar were both pretty drunk at the time they committed the crimes. The places burglarized were the Pan and Campbell hotels and Coates & Weller's clothing store.

ANAHEIM PLUNGE OPENED

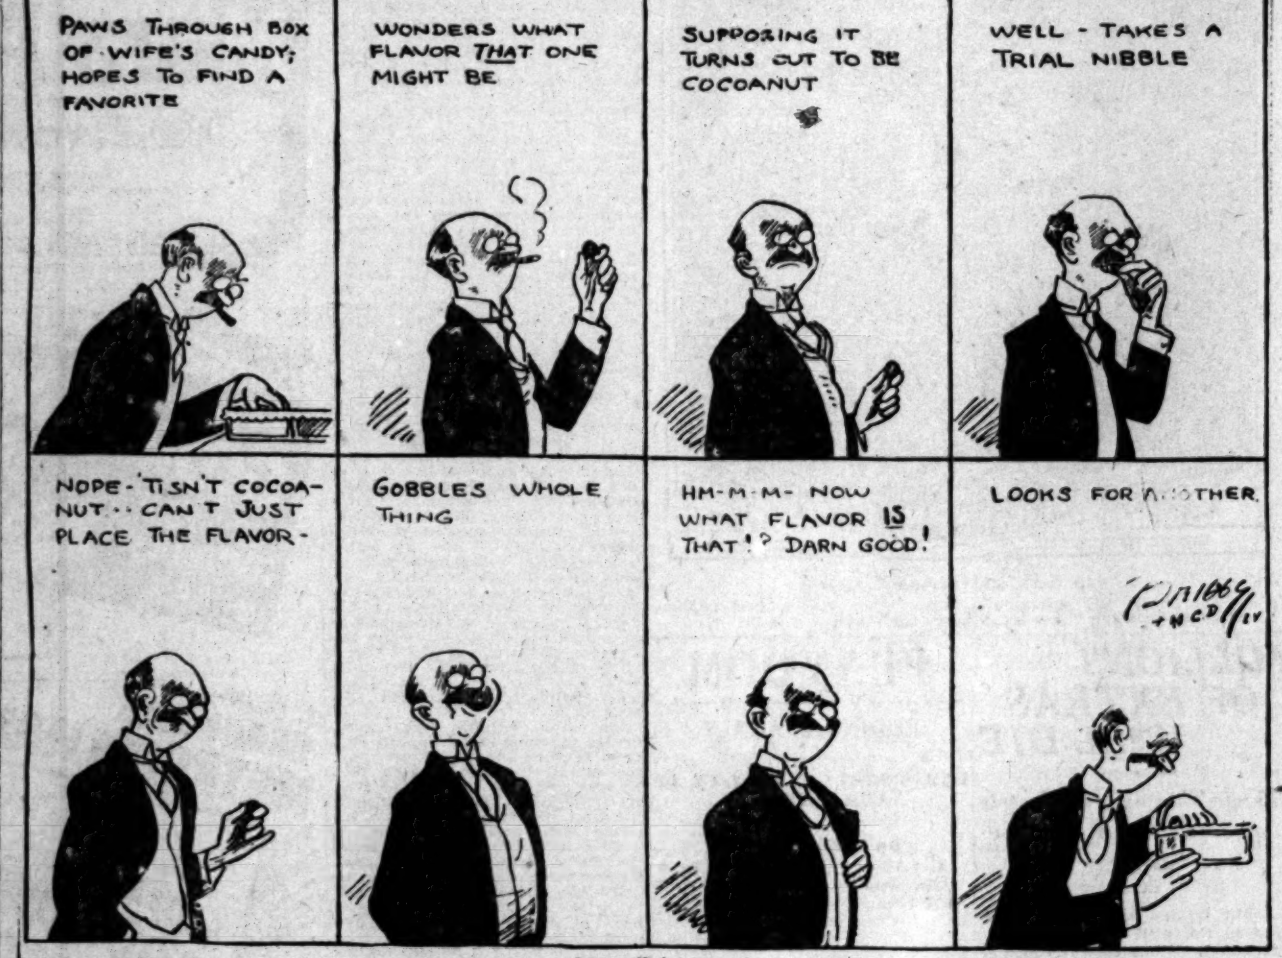

Mayor Stark Officials at Dedication of Fine Pool Owned by Municipality

(LOCAL CORRESPONDENCE) ANAHEIM, March 23.—The new \$55,000 swimming pool, declared to be the largest municipally owned pool in Southern California, was officially opened this afternoon, with spectacular swimming and diving contests and exhibitions furnished by some of the leading instructors and swimmers on the Pacific Coast.

Hundreds of persons gathered in the park for the events of the afternoon and scores of swimmers visited the plunge throughout the day. Jack Kilbourne, instructor of Huntington Beach, arranged the main features of the program and two boys under 15 years of age, Eugene Belsha, swimmer, and "Bud" Higgins, diver, together with two girls under 15 years of age, "Chick" Higgins, Alden Higbee, swimmers, were featured in an exhibition representing the Huntington Beach class.

Exhibition swimming and life saving by California's greatest 4-year-old swimming marvel, Luciel Ugen, was another drawing card on the program. Fifty and hundred-yard stroke contests for men, women and children of varying ages, were participated in by large

THIRD BANK SUSPECT IS IN CUSTODY

Taft Man Held in Jail on Suspicion of Part in Local Robbery

(EXCLUSIVE DISPATCH) BAKERSFIELD, March 23.—Robert Taylor, Taft man, is in the County Jail on a charge of participation in the robbery of the State Bank at Taft, it became known this afternoon.

A warrant is known to have been filed before Justice C. B. Stinchcomb at Taft placing a charge against Taylor similar to those against W. C. "Bill" Crockett and Eleanor Walling, also in the County Jail.

Taylor's arrest has been kept secret by the authorities. The exact manner in which Taylor has been connected with the \$7500 robbery has not been made known.

The legal firm of Dorsey & Campbell has been retained by Taylor. Efforts are now being made to raise the \$10,000 cash bond under which Taylor is being held.

INGLEWOOD'S NEW ICE PLANT STARTS

(LOCAL CORRESPONDENCE) INGLEWOOD, March 23.—Inglewood's newest industry, the Inglewood Ice Company, pulled its first ice today and will begin distribution tomorrow. It was announced by E. B. Brown, the manager. The new plant has a daily capacity of 5000 pounds, which will be doubled at an early date. The plant has just been completed at a cost of \$25,000 by Mr. Brown and his partner, Albert Deike. Distribution will be in charge of Fred Grant, for a number of years agent for Los Angeles ice companies here.

SERVICES ARE OFFERED

ANAHEIM, March 23.—Painters and electricians from the local unions yesterday offered their services in completing the tabernacle erected here in one day by sixty carpenters from the Anaheim union, who donated their services. A campaign will open April 6 to raise \$75,000 for a permanent church for the congregation.

STRONG BOND GIVEN ON PIER FRANCHISE

By a "Times" Staff Correspondent SANTA MONICA, March 23.—One of the strongest bonds ever given for the city, so officials say, has been accepted for the performance of terms in the Ocean Pier franchise sold Thursday last, to the Venice Investment Company. The face of the bond is \$10,000, but the signers are said to represent millions of dollars worth of property. A. L. Gore signed as president of the Venice company with George Cleveland as secretary. The franchise agreement binds the investment company to begin work within four months, although the work will be started next week and rushed to completion for the summer season. It was announced.

VOTING IS URGED AS DUTY OF CITIZENSHIP

(LOCAL CORRESPONDENCE) GLENDALE, March 23.—Urging a larger registration and a larger vote at election time, George A. Rice of the Better American Federation, told the Kiwanis Club here that those who fail to do their part in the election of State and national officers by that failure bar themselves from any right to criticize the actions of the men placed in office. Mr. Rice declared that as long as less than half the voters exercise the franchise on election day it will be impossible to place in office clean, conscientious public servants.

FIGHTS HENDRIX TESTIMONY

Counsel for E. Drew Clark Opposes Condemned Man's Chance to Tell of Asserted Confession

(EXCLUSIVE DISPATCH) SAN DIEGO, March 23.—A determined effort will be made by counsel for the defense to bar John V. Hendrix, condemned murderer, from the witness stand in the trial of E. Drew Clark, accused of the murder of the missing San Diego realtor, George E. Schick. The trial will be resumed tomorrow morning before Judge E. A. Luce in Department Three of the Superior Court.

INGLEWOOD TAKES STEP IN VIADUCT

Los Angeles Bridge Expert Hired to Draw Sketches of Structure

(LOCAL CORRESPONDENCE) INGLEWOOD, March 23.—One more step has been effected in the movement for the building of a \$200,000 reinforced concrete viaduct across North Market street as part of a highway link between Los Angeles and the sea. Charles V. Leeson, bridge engineer of Los Angeles, is to be retained by the city to draw sketches for the proposed structure, after City Engineer Walter A. Corey has prepared the profiles and field work.

This action was taken following the report made by the head of the City Planning Commission, George E. Longan, to the directors of the Santa Fe Railroad, for such near Walter A. Corey has prepared the profiles and field work.

The action was taken following the report made by the head of the City Planning Commission, George E. Longan, to the directors of the Santa Fe Railroad, for such near Walter A. Corey has prepared the profiles and field work.

SOUTHGATE SALARIES FIXED BY TRUSTEES

(LOCAL CORRESPONDENCE) SOUTH GATE, March 23.—The city trustees have arranged the salaries for the city officials who are to be elected at the coming state election for a term of four years. The city clerk's salary has been fixed at \$250 a month; the city treasurer's salary at \$50 a month, and the city recorder is to receive the sum of \$40 a month. As to the salary of the city trustee, this will be voted on at one of the propositions which will be on the ballot election day.

NEW COOLIDGE CLUB AT HUNTINGTON PARK

(LOCAL CORRESPONDENCE) HUNTINGTON PARK, March 23.—The Coolidge-for-President Club has been organized in this city with the following officers: President, Charles A. Larson; First Vice-President, W. L. Cleveland; Second Vice-President, L. L. King; Secretary, Oscar Hilton.

Soon afterward, a young man, whose name the police did not learn, reported he had been stopped by five Mexicans near the Bixby ranch. As they were setting out of their car he put on speed and got away from them, though two shots were fired after him.

ACTION TO BE ASKED ON FOOTHILL ROUTE

(LOCAL CORRESPONDENCE) GLENDALE, March 23.—A resolution urging immediate action looking to the construction of the Burbank-Glendale-Pasadena Highway is to be presented to the City Council at its next meeting, following its adoption at a joint meeting of the Foothill Improvement Association and the Fourth Street Association at which the members endorsed the proposed foothill route.

HEARING OF OFFICER IS CONTINUED

Espee Special Held for Trial in Yard Shooting at Mojave

(EXCLUSIVE DISPATCH) BAKERSFIELD, March 23.—The case of Frank E. Harrigan, former special officer of the Southern Pacific, charged with having committed assault with a deadly weapon, has been continued until the 31st inst., at which time it will be set for trial. Harrigan was held to answer in the Superior Court on a complaint of Ed Hanna, who alleges that Harrigan shot him through the back in the Southern Pacific yards at Mojave, when he was attempting to board a freight train.

R. L. Reams, charged with having issued a bad check, has entered a plea for probation which will be heard on the 31st inst. in the Superior Court.

Dewey Burton, who gave his true name as Dewey Buxton, was arraigned and entered a plea of guilty to a charge of having stolen a Maxwell automobile. His case has been set for trial on April 15, and Attorney Tom Scott, Jr., was appointed by the court to represent the defendant.

Admits Story of Robbery by Youth Is False

By a "Times" Staff Correspondent LONG BEACH, March 23.—D. M. West, former janitor for the Mission Theater, admitted today that he had invented a story which caused the arrest of a youth on suspicion of burglary, according to the police. West, who was discharged from his position two weeks ago, told the police, while they were investigating the robbery of the theater a week ago, that he had been asked by the youth to leave the side door of the theater open so that access to the safe could be gained.

After the youth's arrest, West broke down under questioning and said he had concocted the story to create a sensation and to reintroduce himself to the good graces of his former employers, according to Detective Sergeants Moley and Franks. The youth was released.

HOLD-UP LOOT LIGHT

Long Beach Gang Gets \$4 and Small Amount of Gems

By a "Times" Staff Correspondent LONG BEACH, March 23.—Five men believed to be Mexicans perpetrated another robbery and attempted another early today. The victims were D. Boner, Earl Johnson, Miss Madge Ellain and Miss Ruth Brady, all of Long Beach. They were held up on Anaheim Road, near Recreation Park. The robbers got \$4 and a small amount of jewelry.

Soon afterward, a young man, whose name the police did not learn, reported he had been stopped by five Mexicans near the Bixby ranch. As they were setting out of their car he put on speed and got away from them, though two shots were fired after him.

POWER SAVING URGED

By a "Times" Staff Correspondent VENICE, March 23.—The local Chamber of Commerce has received an appeal from the Los Angeles County Farm Bureau asking all persons in the bay district to co-operate in the conservation of light and power. It was pointed out that to safeguard agriculture and industry during the present drought, that it will be necessary for every user of electric power to effect economy.

PAPERS ROOMS WITH STAMPS

Priest Arranges Collection in Artistic Way

American Flag Masterpiece of Designing

Thirty Years Spent Adding to Treasures

(LOCAL CORRESPONDENCE) BURBANK, March 23.—One of the world's unique stamp collections is that of Rev. A. Bucci, retired priest, who utilized 149,245 canceled postage stamps in papering two of the rooms of his home. Walls and ceilings reflect his patient handiwork. The position of honor is given the United States flag, which waves from the center of the ceiling in one room. The true colors of the emblem are represented as nearly as possible by the use of red and blue stamps. There being no white stamps, the colorless bars are formed by the ceiling.

In the construction of the flag, which measures three by four and one-half feet, Italy supplied the blue field and Uncle Sam the red stripes. The brown staff upholding the colors was contributed by Canada. Geometrical designs are prominent in the borders, while walls and ceilings throughout carry a diamond design that is executed with attractive borders and color combination.

Father Bucci says he has spent more than thirty years in making his collection of the stamps, poring over waste baskets and pressing into service friends in all parts of the world. Practically every nation has representation in the unusual handwork, although of the whole number of stamps used the United States contributed the greater number by far, with Italy second.

Midwest Folk Plan to Make Home in State

(EXCLUSIVE DISPATCH) HUNTINGTON PARK, March 23.—Having decided that sunny Southern California is about the only spot in the entire country in which to reside, several people who have been spending the winter in this vicinity, left during the week for their homes in the Midwest, but only for the purpose of disposing of their property, and returning here during the summer or early autumn months.

Mr. and Mrs. Reynolds, who have been here visiting their son and daughter, Archie Reynolds and Mrs. Lawrence Walbridge, respectively, left for their home in Emporia, Kan., during the week; Mrs. W. Rockwood and Mrs. May Maywood, who have been with Mr. and Mrs. A. D. Stettler, also left for their homes in Superior, Wis., and Mr. and Mrs. J. L. Huthorn, who have been visiting with Mr. and Mrs. G. W. Yerlan, in South Gate, started on their homeward journey to Justus, O.

They all state that they will return during the next few months to reside permanently.

WEDDING TO LINK OLD SPANISH FAMILIES

(LOCAL CORRESPONDENCE) GLENDALE, March 23.—Under a roof tree whose history is said to go back over a century, two members of old Spanish families that have been prominent in Southern California for generations will be married on Sunday.

Jose Lugo of San Gabriel, a son of Mr. and Mrs. Jose Lugo of San Gabriel Mission, will wed Miss Isabel Verdugo, also of San Gabriel, a daughter of Pedro Verdugo of Verdugo Woodlands and a grandniece of Senora Maria Anita Londo Masimo Verdugo of Glendale, who claims to be 118 years of age.

The rose tree was planted by Senora Verdugo, better known as "Mama" Nanita, when she was a child, and it has grown over the little adobe house beside which it stands until it covers almost the entire building, sending forth double white blossoms.

UPLAND RECORD SET IN WHIRLWIND DRIVE

(EXCLUSIVE DISPATCH) UPLAND, March 23.—Three hundred and sixty-seven members entered in eight hours, with paid-up annual dues amounting to \$132, was the new record announced today for the team conducting the one-day whirlwind membership campaign of the Upland Chamber of Commerce, following a check of their activities yesterday. The aggregation headed by "Captain" Don Palmer won with a total of 299 members to its credit. Other members were Fred E. Draper, Harold S. Wilson, John D. Howe, J. W. Hall, Glenn M. Atwood, H. C. Naylor, James H. Black, L. N. Kirk and Harleith C. Brown. Members of the losing team, which turned in a total of 118 memberships for the day, were J. P. Anderson, George Bunker, Harry Plum, Charles Puckett, Alan A. Couch, Bert Perschbacher, L. J. Sikes, Milton Huxtable and C. H. Linkey.

SCHOOLBOYS FORM BEN FRANKLIN CLUB

(LOCAL CORRESPONDENCE) HUNTINGTON PARK, March 23.—The Huntington Park Union High School has a new organization among some of the students known as the Ben Franklin Club, the purpose being to promote social activity among the students of the printing class. The officers selected are Joseph Beasco, president; Perry Mansfield, vice-president; Amos Geff, secretary-treasurer.

ORATION CONTEST WINNERS

Miss Alice Laidlaw and Thomas Drake Chosen in Chaffee High Try-out

(EXCLUSIVE DISPATCH) ONTARIO, March 23.—Thomas Drake and Miss Alice Laidlaw will represent Chaffee High School in the National Oratorical Contest, whose final event will be held at Washington, D. C., June 7. It was announced today following the close of try-outs at the local school.

Drake won first honors in the Chaffee try-outs, Miss Laidlaw, second and Robert Farrell, third. Semifinals of the contest for this district are scheduled to be held at Redlands April 18 and the six winners of this event will enter the final district contest at San Bernardino April 19 or 20.

The six high in the district meet will contest for the Southern California honor at Riverside, May 3, to be followed by the meet in Los Angeles May 9 which will decide the championship of the Pacific Southwest district. Final for the entire Pacific Coast are to be held in Portland, Or., May 16.

Angeleno Files Assault Charge Against Agent

(EXCLUSIVE DISPATCH) BAKERSFIELD, March 23.—T. J. Nicely, Federal prohibition agent, has been charged with committing assault upon Charles Margrave, wholesale grocery salesman of Los Angeles. Margrave swore out the complaint against Nicely today before Justice Edward V. Jones of the sixth township court.

Nicely will be held to answer a technical charge of misdemeanor, assault, under authority of the court.

Nicely is asserted to have struck Margrave without provocation following a conversation between the latter and former Mayor E. J. Hougham regarding some seized liquor paraphernalia, in which a colleague of Nicely's took exception to a remark of Margrave's.

PASADENA FINE ARTS TO BE ON EXHIBITION

By a "Times" Staff Correspondent PASADENA, March 23.—Under the auspices of the Pasadena Fine Arts Club and the 1924 Jubilee Art Committee of the Chamber of Commerce, an exhibition of fine paintings by local artists is being held at the Carmelita Park display house tomorrow afternoon and will be left open for the public for the next two weeks. This is the second free exhibition of its kind to be presented this year as part of the city's Jubilee Year program.

Paintings by local artists will be the principal feature of this second exhibition.

HEWITT GOING EAST

(LOCAL CORRESPONDENCE) GLENDALE, March 23.—President W. E. Hewitt of the Glendale Chamber of Commerce is planning to leave early in April for New York, where he will spend several weeks. Mr. Hewitt will sail from Los Angeles Harbor on the Panama-Pacific liner Kronland and will make the trip through the Panama Canal.

"TIMES" CORRESPONDENTS AND AGENTS

For the convenience of Times patrons in the towns of the Southwest other than Los Angeles, Times news and business representatives in these cities will receive subscriptions and advertising orders.

TO LET - FLATS	TO LET - FLATS
----------------	----------------

A dark, textured vertical band, possibly a book binding or a close-up of a material edge. The texture is highly detailed, showing many fine, parallel lines or ridges running vertically. The color is a deep, mottled black or dark grey. The left edge of the band is slightly irregular and shows some lighter, fibrous material underneath. The right edge is also slightly irregular and shows a similar fibrous texture. The overall appearance is that of a close-up of a book's spine or a similar material.
